#09-04

January 30, 2009

**TO:** PTA Member Companies

**FROM:** Steven J. Samara

**RE:** ITORP Usage Results

It appears that Verizon's originating ITORP usage for December 2008 (terminating to the ITCs) has been input a multiple of times. The condition appears to be isolated in the Capital and Northeast LATAs, but Verizon programmers are still evaluating just what happened and where.

Verizon has not been able to quantify any dollar impact yet, but the January Net Statements and the associated cash flow reflects this inflated usage. Member companies may want to adjust their internal financial reports to reflect a reduced amount of access revenue from Verizon for January until Verizon has a chance to determine the extent of the problem.

PTA will update member companies as more information becomes available.

Questions may be directed to Jerry Eisenhart at 717-777-4877.
