TO: PTA Member Companies

FROM: Steven J. Samara

SUBJECT: 511 Implementation

The PTA has recently been in contact with representatives from Telvent regarding 511 implementation in Pennsylvania. We realize that member companies have been communicating with a number of sources on this matter over the past several months which has caused some confusion. Telvent is the contractor which the Pennsylvania Department of Transportation is using for 511 implementation and should be the primary point of contact going forward.

Specifically, I have been in touch with Mr. Jan Klein (jklein973@gmail.com, 973-714-6150) and I know that some of you have heard from John Schumitz (John.Schumitz@telvent.com). Until further notice from me, I would consider these gentlemen to be the "subject matter experts" on 511 implementation. I have offered to serve as a clearinghouse for any information they need from the member companies if that would help streamline the process, but you may feel free to continue your cooperation with them unless you have questions or concerns which you believe merit the attention of the PTA.

I have attached several documents for your review which have been forwarded to me by Mr. Klein. Please note that the contract document is being reviewed by PTA counsel on your behalf and we will advise you if it is acceptable for you to sign in its current form. As always, please feel free to call the PTA office with questions.
