

May 4, 2009

TO: PTA Member Companies
FROM: Steve Samara
SUBJECT: Swine Flu and Pandemic Planning

The Pennsylvania Public Utility Commission (PUC) has contacted the PTA and asked that Member Companies review their pandemic plans or business continuity plans in light of the recent outbreak of swine flu.

The Pennsylvania Emergency Management Agency (PEMA) and other state agencies are in the process of reviewing state-level plans, and the PUC has been in contact with PEMA to discuss specific concerns with utility-related matters in case of a pandemic situation.

Please take some time to review your company's plans to determine if they need updating and feel free to call the PTA with questions or concerns.
