GENERAL REGULATIONS

TARIFF APPLICATION

This tariff governs the furnishing of telephone service and facilities by the Deposit Telephone Company, Inc., hereinafter referred to as the Telephone Company. The general regulations in this section of the tariff are supplemental to regulations contained in other sections of this tariff.

The terms and conditions detailed in this tariff do not apply to customer premise equipment purchased by the Company after January 1, 1983 with the exception of over voltage equipment, inside wiring, coin telephones and multiplexing equipment.

The Company after January 1, 1983 will provide customer premise equipment on a de-tariffed basis, either through direct sale or on a leased arrangement, at rates not governed by this tariff. Leased equipment in service at a particular location on December 31, 1982 will continue to be leased to a customer at that location and will be governed by this tariff until service to that customer is terminated for any reason at that location.

(C)

The Telephone Company will continue to provide maintenance for the Telephone Company provided customer premise equipment subject to the availability of replacement parts and/or equipment.

TELEPHONE SERVICE DEFINED

The Telephone Company does not transmit messages but offers, subject to the terms and conditions specified in this tariff, the use of its facilities, where available, for communication between subscribers. The term "service" as used throughout this tariff refers to service, equipment and facilities.

OBLIGATION TO FURNISH SERVICE

The Telephone Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment.

SPECIAL TYPES OF SERVICE AND EQUIPMENT

In cases where a subscriber desires some special type of service or equipment for which provision is not otherwise made, and in the judgement of the Telephone Company there is no reason for refusing to render the special service desired, a rate is quoted based on the cost of furnishing such service or equipment.

GENERAL REGULATIONS (cont'd)

EQUIPMENT, APPARATUS AND LINES

Equipment furnished by the Telephone Company shall remain the property of the Telephone Company and, upon termination of service for any cause whatsoever, shall be returned to the Telephone Company in good condition, reasonable wear and tear thereof excepted.

No equipment, apparatus or lines furnished by the subscriber shall be attached or used in connection with equipment, apparatus or lines furnished by the Telephone Company unless specifically authorized and connected and used exclusively with the Telephone Company's system.

GENERAL REGULATIONS (cont'd)

INSTALLATION, RELOCATION, MAINTENANCE, REPAIRS & REMOVAL

Except as otherwise provided in this tariff all equipment and wiring furnished by the Telephone Company must be installed, maintained, repaired, relocated and removed by the Telephone Company and the subscriber may not rearrange, disconnect, remove or attempt to repair it or permit others to do so.

The subscriber shall be responsible for damages to the facilities of the Telephone Company resulting from negligence or willful act of the subscriber.

The Telephone Company shall not be liable for any defacement of or damage to the premises of the subscriber resulting from the attachment of the Telephone Company's equipment, apparatus or lines on such premises, or their installation or removal, when such damage is not the result of negligence of the Telephone Company.

ACCESS TO PREMISES OF SUBSCRIBER

For the purpose of installing, repairing, inspecting or removing any part of its equipment, apparatus or lines on the premises of the subscriber, or for making collections, the agents and employees of the Telephone Company shall have entrance thereto at any reasonable hour.

BUSINESS AND RESIDENCE SERVICE CLASSIFICATIONS

Business rates are applicable in connection with service furnished at a business location or any other place where the service is used primarily or dominantly for business, professional or institutional purposes. If either the main station or any extension connected therewith is located in a place where business rates are applicable, business rates apply to the main station and to all extensions therefrom.

Residence rates apply in private residences where the service is used primarily or dominantly for social or domestic purposes.

GENERAL REGULATIONS (cont'd)

USE OF SERVICE

Unless otherwise indicated in this tariff, the use of business service is restricted to the subscriber, his agents and representatives, and the use of residence service is restricted to the subscriber and members of his household.

The subscriber shall not use the service or permit others to use it in such manner as to interfere with the service of other subscribers.

Unless otherwise provided in this tariff, service shall in no case be resold.

CONTRACTS FOR SERVICE

The Telephone Company reserves the right to require applications for service to be made in writing on forms supplied by it. Upon acceptance of an application for service, all applicable provisions of the Telephone Company's tariffs lawfully on file become the contract between the Telephone Company and the subscriber. Requests for additional service or changes in service, upon acceptance by the Telephone Company, become a part of the original contract, except that each item of additional service is subject to the appropriate minimum contract term. The acceptance or use of service may be deemed an application for such service and an agreement to pay for it at the rates applicable thereto under the current tariff. Any change in rate or regulations lawfully made acts as a modification of all contracts to that extent without further notice.

Except as otherwise provided in this tariff, service is furnished for a minimum contract term of three months.

FCC DESIGNATED 811 SERVICES

As mandated by the Federal Communications Commission (FCC), in compliance with the Pipeline Safety Improvement Act of 2002, the abbreviated 811 Dialing Code is established for use by commercial and residential consumers to provide advanced notice of excavation activities to certified "One Call" notification systems entities as a toll free call. The certified "One Call" notification systems entity must subscribe to termination facilities and lines in sufficient quantities to provide adequate service to the public. 811 Service is provided for the benefit of the certified "One Call" notification systems entity on a special charge treatment basis as detailed in Section 1, Sheet 1 of this tariff. The provision of 811 Dialing Code by the Company shall not be interpreted, construed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the certified "One Call" notification systems entity.

The maximum liability of the Company for direct damages or losses of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, will in no event exceed an amount equivalent to the proportionate charge to the certified "One Call" notification systems entity for the 811 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs. The Company will have no liability for any consequential, incidental, or indirect damages or losses, whether or not the customer was aware or should have been aware of the possibility of these damages or losses. The Company is not liable for any losses or damages caused by the negligence or willful misconduct of the certified "One Call" notification systems entity.

GENERAL REGULATIONS (cont'd)

DEPOSITS

A deposit, in accordance with Commission regulations at 52 Pa. Code, §§ 64.31 - 64.41 may be required as security for future bills. Interest rates applied to customer deposits held by the Telephone Company are prescribed by the PUC.

Deposits will be returned in accordance with Commission regulations at 52 Pa. Code, §§ 64.31 - 64.41.

The fact that a deposit may have been made in no way relieves the applicant or subscriber from complying with the Telephone Company's regulations as to the prompt payment of bills or constitutes a waiver or modification of the regular practices providing for discontinuance of service for non-payment of any sums due the Telephone Company for service rendered.

CHARGES FOR FRACTIONAL MONTHS

When service is established, the initial charge for local service, equipment and facilities for the fractional part of the current billing month is a pro rata share of the monthly charge.

PAYMENT FOR SERVICE

Installation and construction charges, where applicable, must be paid in advance of the establishment of service.

Service connection charges are payable when service is established.

Message charges at pay telephone lines are payable in advance.

Recurring charges for service are billed monthly in advance and are payable when the service has been rendered. Charges for toll message service are billed after the service has been rendered and are payable on request.

Charges for all local and toll messages sent from the subscriber's telephone station and for all toll messages received at such station on which charges are reversed with the consent of the person answering the call are the responsibility of the subscriber.

A statement of account rendered to the subscriber shall be deemed correct and binding upon the subscriber unless objection in writing is received by the Telephone Company within thirty days after rendition of the statement.

Late Payment Charges

- a) A Late Payment charge of 1.25% per month applies to all past due balances.
- b) Customers with past due balances who sign up for electronic payments will receive a one-time waiver of the late payment charge.
- c) Final collection procedures, temporary disconnection of service, and the requirements for deposit are unaffected by the application of a late charge. The late payment charge does not extend the time for payment or otherwise enlarge or change the rights of the customer. Notice of intention to pay late will not avoid this charge.
- d) The late payment charge will not include previously accrued late payment charges.

GENERAL REGULATIONS (cont'd)

SUSPENSION OF SERVICE

The Telephone Company reserves the right to suspend service for non-payment of bills, ten days after date due, or for violation of rules and regulations of this tariff, after due notice by the Telephone Company.

The Telephone Company also reserves the right to suspend, without notice, service to facilities that have apparently been abandoned and to demand payment for such service up to and including date of suspension, provided it has not been notified by the subscriber to discontinue service prior thereto.

LIABILITY OF TELEPHONE COMPANY

In event interruptions, omissions, defects, errors, mistakes or delays in transmission occur in the course of furnishing service, lines and other facilities and are not caused by negligence of the subscriber, the liability of the Telephone Company for damages arising therefrom shall not, except as otherwise provided for in Section 1 Sheet 8 of this tariff, exceed an amount equivalent to the proportionate charge to the subscriber for the period during which such interruption, omission, defect, error, mistake or delay in transmission occurs. Where a local message guarantee applies, a pro rata portion of the guarantee for the period of suspension is allowed. No other liability shall in any case attach to the Telephone Company.

(C)

(C)

CANCELLATION FOR CAUSE

Service is furnished subject to the condition that it will not be used for an unlawful purpose. Service will not be furnished if any law enforcement agency, acting within its jurisdiction, advises that such service is being used or will be used in violation of law, or if the Telephone Company receives other evidence that such service is being or will be so used.

The Telephone Company may also terminate without advance notice any service which is used in such a manner as to interfere with the service of others or that is used for any purpose other than a means of communication.

TELEPHONE NUMBERS

The Telephone Company reserves the right to change the telephone number or numbers of a subscriber's station or stations as the exigencies of the business may require.

TELEPHONE DIRECTORIES

Telephone directories issued by the Telephone Company to its subscribers and patrons without charge are the property of the Telephone Company and shall be surrendered to the Telephone Company upon termination of service or distribution of a subsequent issue, in as good condition as reasonable wear and tear permits. No binder, holder or auxiliary cover, except where furnished by the Telephone Company, may be used in connection with any directory furnished by it.

The Telephone Company, except as provided herein, shall not be liable for damage claimed on account of errors in, or omissions from, its directories, nor for the result of publication of such errors in the directory, nor will the Telephone Company be a party to controversies arising between subscribers or others as the result of listings published in its directories.

Claims for damages on account of interruptions to service due to errors in or omissions of directory listings will be limited to an amount equivalent to the proportionate charge for that part of the customer's service which is impaired, but not to exceed one-half the local service charges for the service items affected for the period from the date of issuance of the directory in which the mistake occurred to the date of issuance of a new directory containing the proper listing.

OVERTIME WORK

When, at the subscriber's request, work is performed at other than regular business hours of the Telephone Company, an extra charge for such work will be made to compensate for the current overtime wage rates.

TOLL MESSAGE RATES

Rates, rules and regulations governing Toll, or Long Distance, messages are contained in the toll tariff of the Bell Telephone Company of Pennsylvania.

STATE TAX ADJUSTMENT SURCHARGE

In addition to the charges provided in this tariff and other state toll and access tariffs in which this company concurs, a surcharge, as shown below, will apply to all intrastate charges for service on or after July 1, 1999, except on calls from pay telephone lines. (C)

For services provided to:	<u>Surcharge Rate</u>
END USER	-0.004% (I)
OTHER LOCAL EXCHANGE CARRIERS	0.000% (I)
ALL INTEREXCHANGE CARRIERS/RESELLERS	0.000% (I)

The above charges will be recomputed, using the same elements prescribed by the Commission:

1. Whenever any of the tax rates used in calculation of the surcharge are changed.
2. Whenever the utility makes effective any increased or decreased rates.
- c. And on March 31, 1971, and each year thereafter.

The above recalculations will be submitted to the Commission within 10 days after the occurrence of the event or date which occasions such recomputations; and that if the recomputed surcharge is less than the one in effect the Utility will, and if the recomputed surcharge is more than the one then in effect the Utility may submit the such recomputation a tariff or supplement to reflect such recomputed surcharge, the effective date which shall be 10 days after filing.

ALLOWANCES FOR TELEPHONE SERVICE INTERRUPTIONS

(C)

When main telephone service is interrupted for a period of at least 24 hours, the company, after due notice by the customer, shall apply the following schedule of allowances except in situations as provided in Paragraph 2:

1. (a) 1/30 of the tariff monthly rate of all services and facilities furnished by the company rendered inoperative by the company to the extent of being useless for each of the first three (3) full 24 hour periods during which the interruption continues after notice by the customer of the company conditioned that the out-of-service extends beyond a minimum period of 24 hours.
 - (b) 2/30 of each full 24 hour period beyond the first three 24 hour periods. However, in no instance shall the allowance for the out-of-service period exceed the total charges in a billing period for the service and facilities furnished by the company rendered inoperative to the extent of being useless.
2. When service is interrupted for a period of at least 24 hours due to such factors as storms, fires, floods or other conditions beyond the control of the company, an allowance of 1/30 of the tariff monthly rate for all services and facilities furnished by the company rendered inoperative to the extent of being useless shall apply for each full 24 hours during which the interruption continues after notice by the customer to the company.

Nothing contained herein and no tariff adopted hereto shall limit any responsibility or liability on the part of a telephone company to a customer which would exist pursuant to law but for this rule and said tariff.

The foregoing allowances shall not be applicable where service is interrupted by the negligence or willful act of the customer to service or where the company pursuant to the terms of the contract for service suspends or terminates service for non-payment of charges or for unlawful or improper use of facilities or for any other reason provided for in the filed and effective tariff.

GENERAL REGULATIONS (cont'd)

PROMOTIONAL SALES CAMPAIGN

The Telephone Company may, upon thirty (30) days written notice to the Commission, offer a promotional sales campaign to its customers whereby the Telephone Company may waive non-recurring charges, recurring charges, or both, for Advanced Custom Calling Features, or waive the nonrecurring charges for the installation of an additional access line.

The purpose of this offering is to promote the sale of Advanced Custom Calling Features by acquainting customers with the benefits of these services free of charge for a trial period up to 60 days. The purpose for offering the waiver of nonrecurring charges for the additional access line is to promote the sale of an additional access line by making it more affordable for a customer to obtain the service.

If, at the conclusion of the free trial period, the customer elects to retain Advanced Customer Calling Features, the customer must notify the Company, either verbally or in writing, that the customer wishes to retain one or more of the promotional services. In this case, specified tariffed rates will apply for the retained services from the date the services were permanently established.

If, at the conclusion of the free trial period, the customer does not notify the Company, either verbally or in writing, that the customer wishes to retain one or more of the promotional services, the services will be discontinued and no charges will apply.

For the period July 19, 2005 through September 30, 2005, the Company will waive all non-recurring charges associated with the installation of an additional access line.

B. Conditions and Limitations

1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this Package.
2. STAR Package customers may terminate their Package at any time upon notice to the company.
3. Unless terminated by the STAR Package customer or the Company, a customer will remain enrolled in the Package, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
4. Service Charges, as described in Section 3 of this tariff, apply to requests for new and additional STAR Package lines, and moves of existing lines. Service Charges will not apply when the STAR Package replaces existing Local Exchange Service or if the customer requests a change from the STAR Package back to Local Exchange Service.
5. A Package Change Fee will apply when a customer goes from the 4 STAR or 5 STAR Package to the 3 STAR or 4 STAR Package. Customers may upgrade their Packages without incurring a charge.
6. STAR Package customers are not eligible for discounts or promotional offerings outside of this Package, unless specifically provided for in a promotional offering.
7. The Package may not be combined with any other optional toll calling plan service, except for those specified in this offering.
8. Customers may upgrade their Voice Mail Service package for an additional fee.
9. Customers who fail to pay the entire Package rate per month will have all STAR Package optional features removed. The customer will then be converted to the tariffed Basic Local service rate. Service Charges will not apply for converting services back to tariff rates. Such customers will not be permitted to re-enroll in this any of the Packages until such time as all associated unpaid balances are satisfactorily paid in full.

LINK-UP AMERICA

A. DESCRIPTION

Link Up America is a program designed to promote universal service by providing a discount on service connection charges for qualified low-income customers. **NOTE: Customers who qualify for Link Up America Service may also qualify for Lifeline Service.**

B. REGULATIONS

1. Link Up America is available to residence customers who meet the following eligibility criteria:

(a) The applicant must not be a dependent for federal income tax purposes, unless he or she is 60 years of age or older.

The applicant must self-certify the requirement set out in (a).

(b) An applicant for Lifeline Service must be a current participant in one of the following Pennsylvania programs, or be able to provide proof of household income which is at or below 135% of the annual Federal Poverty Guidelines for all States (except Alaska and Hawaii) and the District of Columbia. Recertification of a representative sample of Lifeline Service participants will be conducted annually by TDS Telecom/Deposit Telephone Company.

Pennsylvania Department of Public Welfare Link Up America Service Programs:

- * Temporary Assistance for Needy Families (TANF)
- * General Assistance (GA)
- * Supplemental Security Income (SSI)
- * Medicaid
- * Supplemental Nutrition Assistance Program (SNAP) (f/k/a Food Stamps) (C)
- * Low Income Home Energy Assistance Program (LIHEAP)

Additional Eligible Programs (Federal)

- * Federal Public Housing
- * National School Free Lunch Program

The DPW Programs listed above must be certified by DPW. Such certification by DPW will be provided only when a DPW client requests Link Up America Service based on the client's status as a participant in any of the above eligibility programs. Certification by DPW will be limited to confirmation of the client's program status (i.e., participation or non-participation). Participation by DPW is subject to execution of an agreement with DPW and TDS Telecom/Deposit Telephone Company.

LINK UP AMERICA (cont'd)

B. REGULATIONS (cont.)

2. The Link Up America discount is applicable to one access line (dial tone line) when applied to the installation or relocation of main service at a customer's principal residence. (C)
3. Link Up America applicants are not exempt from Telephone Company Deposit requirements.
4. Service will not be established at discounted rates prior to receipt of certification. Service will be established at full service connection charges. If certification is received within 60 days of original application, credit will be applied to provide the Link UP America discount.
5. The Link Up America discount does not apply to applicants who are full-time students living in university or college controlled housing.

C. RATES

The Link Up America Program provides for a 50% discount on the Service Connection Charge associated with the connection of a new residence exchange access line (dial tone line) as specified in the Telephone Company's tariffs. The total amount of the discount may not exceed \$30.00 and the remaining charges will be billed to the Link Up America customer in monthly installments as specified in the Telephone Company's tariffs.

LIFELINE SERVICE

A. DESCRIPTION

Lifeline Service is a Residence offering for low-income customers who qualify for this service in accordance with the following Regulations. **NOTE: Customers who qualify for Lifeline Service may also qualify for Link Up America Service.**

B. REGULATIONS

1. Lifeline Service is available to qualified residence customers and is provided via a residence individual Dial Tone Line. Lifeline Service is limited to only one Service per qualified customer or household. A potential Lifeline customer who has an outstanding final bill for telephone service which is less than (4) years old must pay the entire balance of any Basic Service final bill before being eligible for Lifeline Service.
2. Residence Lifeline Service consists of the following tariffed standard features and optional customer elected services at the applicable rates, charges and regulations for each feature and service provided:
 - a. One-Party Residence Unlimited Service and Local Measured Service, if available.
 - b. Directory Listing (standard only).
 - c. Non-Published or Non-Listed Telephone Number Service.
 - d. Access to Directory Assistance Service.
 - e. Touch Tone Calling Service.
 - f. Access to Message Toll Telephone Service and Optional Dial Station-To-Station Calling Plan Services. However, the Residence Lifeline Dial Tone Line will be blocked from dial station access to 976/556/900 and any other type of Audiotex Service.

- * Low Income Home Energy Assistance Program (LIHEAP)

Additional Eligible Programs (Federal)

- * Federal Public Housing
- * National School Free Lunch Program

The DPW Programs listed above must be certified by DPW. Such certification by DPW will be provided only when a DPW client requests Lifeline Service based on the client's status as a participant in any of the above eligibility programs. Certification by DPW will be limited to confirmation of the client's program status (i.e., participation or non-participation). Participation by DPW is subject to execution of an agreement with DPW and TDS Telecom/Deposit Telephone Company.

4. Lifeline Service will be provided to a customer only so long as such customer continues to meet the participation and certification guidelines in 2 (c) above. At the time of initial establishment of Lifeline Service, the customer agrees to have his or her eligibility recertified as determined by TDS Telecom/Deposit Telephone Company. When the Company is notified by the customer or determines through recertification that the Lifeline Service customer is no longer a participant in the DPW programs in 2 (c) above or otherwise low-income eligible, the customer will be notified (by telephone or letter) that the Lifeline Service rate is no longer applicable. Within the stated customer notification period (10 working days from the date of the notification), the customer can contact the Company to negotiate new Dial Tone Service arrangements at applicable tariff rates (no connection charges will apply for existing services or options retained). If the customer does not contact the Company by the end of the notification period, the Lifeline Service will be changed to applicable Exchange Area Dial Tone Line service at existing tariff rates (no connection charges will apply to existing services or options retained). Upon contacting the Company, the customer will have ten (10) working days to complete the low-income certification or recertification process in order to retain Lifeline Service.

B. REGULATIONS (cont'd)

5. A Lifeline Service customer may not subscribe to any other type of residence Local Exchange Service at the same or other premises. Lifeline Service will not be provided via Foreign Exchange or Foreign Central Office Service arrangements.
6. Only services listed in B (2) above will be provided to Lifeline customers. (C)
7. Lifeline Service customers are required to apply for the Link Up America benefit when applicable.
8. Customer requested temporary suspension of Lifeline Service is not permitted.
9. Lifeline Service does not apply to applicants who are full time students living in university or college controlled housing.
10. The applicant must not be a dependent for Federal Income Tax purposes, unless he or she is 60 years of age or older.
11. Lifeline customers are subject to all Residence service regulations in this and other tariffs of Deposit Telephone Company.
12. Residence Lifeline Service cannot be resold by the Lifeline customer or the Lifeline customer's agent(s).
13. Resale of Lifeline Services are subject to wholesale rate obligations under Section 251 (c)(4) of the Telecommunications Act of 1996.
14. All outstanding charges, account balances and service restrictions apply to existing customers who qualify for Lifeline Service. Service restrictions will remain until the arrearage(s) have been paid in full.
15. Any Lifeline customer who has a past due balance of Toll Charges will be treated with the appropriate Chapter 64 regulations. The Residence Toll Restoral Charge applies to Lifeline Customers who are suspended for non-payment and who subsequently pay their outstanding toll charges and request toll restoral. If a Lifeline customer is toll restricted for a second occurrence the Company may, at its discretion, place the Lifeline customer on permanent toll restriction.
16. Toll-Blocking and Toll-Control services will be provided at no charge to Lifeline Service subscribers, to the extent that they are offered.

EXTENSION STATION

When an extension station, bell, gong, or horn, or PBX station is located in a building separate and apart from that housing the main station, an additional charge applies to that portion of the line extending beyond the building in which the initial station is installed. This charge is computed on route measurement from the point of exit from the main building to the location of the extension instrument per each wire circuit as follows:

	Monthly Charge	
For each 1/4 mile or fraction thereof.....	<u>\$1.45</u>	(I)

LEASED LINES

When available or when they can be conveniently provided at reasonable cost, the Telephone Company's wire facilities will be leased for private and special use to either the general public or other carriers under the following terms and conditions:

	Monthly	
	Charge	
For each 1/4 mile or fraction thereof.....	\$1.45	(I)

The minimum monthly charge for any leased line or circuit is equivalent to the applied rate for 1/2 mile.

Charges for leased lines are computed on air line measurement between the respective terminals; terminals meaning the first and last points of contact with the Telephone Company's facilities.

CONSTRUCTION AND ATTACHMENT CHARGES

GENERAL

The rates otherwise provided for in this tariff are based on furnishing service immediately adjacent to existing lines and facilities of the Telephone Company and on the use of lines and facilities engineered and constructed according to common and accepted practices. When service is desired at points somewhat removed from existing lines and facilities, or when abnormal and unusual arrangements and installations are desired, such service and installations are subject to additional charges as prescribed hereunder.

CONSTRUCTION ON PUBLIC RIGHT-OF-WAY

In all cases of plant construction on public highway, ownership of the plant must be vested in either the Telephone Company or some company with which the Telephone Company has a joint use agreement.

When local exchange service is desired at a point outside the base rate area but within the exchange area more than 2,640 feet distant from then existing facilities, the applicant therefor may be required to pay for this construction or use of another company's plant in lieu of such construction as follows:

For each 100 feet, or fraction thereof, required to make the necessary extension beyond the first 2,640 feet, route measurement, from the existing lines, a charge of \$10.00.

Measurement to be restricted to the shortest and most direct route over which the desired point can be reached by following public right-of-way or other vested right-of-way privileges which the Telephone Company may hold by reason of its franchise or charter, including public thoroughfares such as highways, streets and public alleys.

CONSTRUCTION ON PRIVATE PROPERTY

In all cases of plant construction on private property, where the type of construction is selected by the Telephone Company, the Telephone Company will construct, own and maintain its facilities, either wholly or jointly with an electric utility, subject to a construction charge based on route measurement as follows:

First 500 feet of construction - no charge.

Each additional 100 feet or fraction thereof - \$10.00

Issued: August 31, 1966

Effective: September 1, 1966

CONSTRUCTION AND ATTACHMENT CHARGES

(Continued)

CONSTRUCTION ON PRIVATE PROPERTY (cont'd)

Where the customer requests a type of construction different from that selected by the Telephone Company, a charge will be made to cover the excess cost of construction above that selected by the Telephone Company.

The Telephone Company shall have access to all facilities at all times for maintenance purposes.

Where applicant is so located that it is necessary to use a private right-of-way to furnish service, the subscriber is required to pay the entire cost involved in securing such right-of-way.

The customer is responsible for all tree trimming required to keep the private right-of-way, in which his terminal facilities are located, clear and unobstructed.

OTHER SPECIAL CONSTRUCTION

When some special or abnormal installation or arrangement of facilities is desired, such as underground construction or concealed wiring, the applicant may be required to furnish at his own expense all necessary conduits, outlets and other fixtures. The Telephone Company will install and maintain its facilities in such conduits and fixtures, provided they are constructed in such a manner as to meet the Telephone Company's needs and approval.

MINIMUM CONTRACT

New construction will be provided only where service is contracted for a minimum period of five years.

Issued: August 31, 1966

Effective: September 1, 1966

REFUNDS

If at any time within three years from date of completed construction, pole lines for which a subscriber has paid a non-recurring charge are used for other purposes, such subscribers may be entitled to refunds as follows, provided they are still served by such construction:

If such lines are used to carry toll lines of the Telephone Company, the refund will be prorated to cover the unexpired portion of the original three year period for that part of the pole line so used.

When such lines are used to supply local exchange service to other subscribers, the refund will be the difference between the original charge and that subscriber's pro rata share of the total construction, allowing 2,640 feet for each main station for that pole line.

(C)

2. For the purpose of this section only, the following words and terms shall have the following meanings, unless the context clearly indicates otherwise:
 3. **Applicant For Telephone Service** - The developer of a recorded plot plan consisting of five or more lots, or one or more five unit apartment houses.
 4. **Developer** - The party responsible for constructing and providing improvements in a development, that is, streets, sidewalks, and utility-ready lots.
 5. **Development** - A planned project which is developed by a developer/applicant for telephone service set out in a recorded plot plan of five or more adjoining unoccupied lots for the construction of single-family residences, detached or otherwise, mobile homes, or apartment houses, all of which are intended for year-round occupancy, if telephone service to the lots necessitates extending the utility's existing distribution lines.
 6. **Distribution line** - A main line facility directly or indirectly connecting the customers in a development to the telephone central office.
 7. **Service line** - A line from the distribution line to the residence of the subscriber.
 8. **Subdivider** - The party responsible for dividing a tract of land into building lots which are not to be sold as utility-ready lots.
 9. **Subdivision** - A tract of land divided by a subdivider into five or more adjoining unoccupied lots for the construction of single-family residences, detached or otherwise, or apartment houses, all of which are intended for year-round occupancy, if telephone service to the lots necessitates extending the utility's existing distribution lines.

3. Distribution and service lines, except pedestals, installed as the result of an application for telephone service within a development shall be installed underground; shall conform to the utility's construction standards; and shall be owned and maintained by the utility. Excavating and backfilling shall be performed by the applicant for telephone service or by another agent the applicant may authorize. All other installation shall be performed by the utility or by another agent the utility may authorize. The utility shall not be liable for injury or damage occasioned by the willful or negligent excavation, breakage or other interference with its underground lines occasioned by anyone other than its own employees or agent. Nothing in this section shall prohibit a utility from performing its own excavating and backfilling for greater system design flexibility. No charges other than those specified in subsection (c) and (d) shall be permitted.
4. The applicant for telephone service to a development shall do the following:
 1. At its own cost, provide the utility with a copy of the recorded development plot plan identifying property boundaries, and with easements satisfactory to the utility for occupancy and maintenance of distribution and service lines and related facilities.
 2. At its own cost, clear the ground in which the service lines and related facilities are to be laid of trees, stumps and other obstructions, provide the excavating and backfilling according to utility specifications and subject to the inspection and approval of the utility, and backfill within 6 inches of final grade. Utility specifications for excavating and backfilling shall be set forth by the utility in written form and presented to the applicant at the time of application for the service and presentation of the plot plan to the utility. If the utility's specifications have not been met by the applicant's excavating and backfilling, the excavating and backfilling shall be corrected or redone by the applicant or its authorized agent. Failure to comply with the utility's construction standards and specifications permits the utility to refuse utility service until the standards and specifications are met.

3. Request the installation of distribution and service lines at such time that the lines may be installed before curbs, pavements and sidewalks are laid; carefully coordinate scheduling of the utility's line and facility installation with the general project construction schedule including coordination with any other utility sharing the same trench; keep the route of lines clear of machinery and other obstructions when the line installation crew is scheduled to appear; and otherwise cooperate with the utility to avoid unnecessary costs or delays.
4. Place with the telephone company, in advance or upon such other terms as the company may require, the following charges:
 - (i) A prepayment in aid of construction in an amount not in excess of 60% of the company's costs of the distribution line for the development.
 - (ii) The prepayment in aid of construction will be refunded on a proportionate basis for each contract for telephone service rendered. The basis of total refund shall be 100 percent refund upon receipt of telephone contracts for telephone service from 50 percent of the total development within a ten-year period.
4. If the applicant changes the plot plan after installation of the telephone utility's lines has begun, or requests deviation from the utility's established underground construction practices, the additional costs shall be borne by the applicant. No charges other than those described in this subsection and in subsection (c) shall be borne by the applicant for telephone service or by another utility sharing the same trench, even if the utility elects to perform its own excavating and backfilling.
5. The Commission believes that there should be joint use of trenches whenever economically and technologically feasible. However, the Commission realizes that the economic advantages which can result from the joint use of trenches may at time be obviated by the technological disadvantages of joint occupancy. Therefore, the Commission will not make the joint use of trenches mandatory but will require the joint use of trenches whenever the circumstances indicate that the use would be feasible and all parties agree thereto.

UNDERGROUND SERVICE IN RESIDENTIAL DEVELOPMENTS (cont'd)

(C)

6. This section shall apply to all requests for distribution facilities for telephone service to developments which are filed after June 9, 1984.
7. Amounts the public utility receives under subsection (c) (4) (i) shall be credited to Accounts 174-Other deferred credits.
8. Whenever the public utility or an affected person believes that the application of the tariff rule works an undue hardship, involves a physical impossibility, or is otherwise inappropriate, the utility or person may request an exception from the undergrounding requirements of this section by following the procedure set forth in 57.86 (relating to exceptions).
9. Exceptions, as granted by the Commission for electric distribution lines under 57.86 (relating to exceptions) shall also apply to telephone facilities. If an exception request, initiated by an applicant for telephone service is granted and the applicant thereafter desires underground service, then this section shall apply as if no exception had been granted.
10. Telephone utilities shall file a tariff supplement adding this section to its tariff. The tariff supplement shall become effective on the date filed.
11. Telephone utilities shall file undergrounding construction and specification standards and revisions thereto with the Commission's Bureau of Safety and Compliance.
12. Underground facilities in new residential developments are only required by this section when a bona fide developer exists, that is only when utility-ready lots are provided by the developer. A mere subdivision is not required to have underground service. However, should the lot owner in a subdivision desire underground service, the service shall be provided by the utility if the lot owner, at his option either complies with subsection (c) or pays to the utility the charges that are contained in the utility's tariff for underground telephone service not required by this title.

DIRECTORY LISTINGS

All subscribers, including pay telephone lines, are entitled to one listing in the official directory published by the Telephone Company.

Additional listings are provided at \$0.85 each per month. This charge to continue while directory containing such listing is in effect. The charge will be terminated: if the main station telephone service is terminated; upon death of listed party; listed party subscribes for service in his own name; or moves to a location where he is not accessible to the subscriber's station.

Foreign Exchange listings are provided at \$0.79 each per month. This service is available to customers who receive dial tone from an exchange other than the exchange where the customer resides.

Acceptable listings are limited to real names of individuals, partnerships or corporations and/or the names under which such individuals, partnerships or corporations actually conduct their business.

EXTENSION STATIONS

Extension stations and PBX extension stations are provided at the following monthly rates:

Business.	\$2.80
Residence	\$1.90

When an extension station is located in a separate building from that of its main station, a mileage charge applies as shown in Section 4.

Extension stations without dials may be provided at pay telephone lines to receive calls only, at the regular business extension rate.

When either the main or extension station is at a business location, business rates apply to both stations.

The number of extension stations connected to any line may be limited by operating conditions.

Permanently connected one-party line extension stations may be located on any premises of the customer, and, in connection with business service, on the premises of the customer's agents or representative. Party line extension stations must be located on the main station premises.

NON-PUBLISHED TELEPHONE NUMBERS

A telephone number is "non-published" when it is omitted from the directory and also from the information lists of the Telephone Company. Upon request, and at a rate of \$1.28 per month, a subscriber may have a "non-published" number, but such requests are discouraged as far as possible. Unless the specific call number is given by the person calling, connection will not be established with a telephone having a "non-published" number.

This charge does not apply if the subscriber has another telephone line at the same location which is listed in the directory and information lists.

When existing service for the same customer requires a number change in order to establish or continue "non-published" service, a charge as shown in Section 3 applies.

DIAL-IN-HANDSET TELEPHONE ##

A small telephone with an illuminated dial in the handset is available in both desk and wall styles in colors normally provided by the company's regular supplier of telephone instruments, at the following rates which are in addition to regular monthly charges and appropriate service connection charges.

Monthly charge	\$1.70
----------------------	--------

Customer must provide power source of 110 volts, 60 cycle current from a convenient outlet.

##-The rates for terminating equipment are applicable only to customers with service at December 31, 1982 or to customers taking service after that date utilizing embedded equipment.

8 yr. And Up	9.95	16.95	22.95	30.95

Hard wired sets will be charged for at \$1.00 less than listed price. All in place telephones will carry a limited warranty of 30 days and all inventory telephones will carry a limited warranty of 90 days. (C)

The Company may offer for sale certain items at prices less than the prices set forth in the effective tariff. These prices will be above salvage values and will only apply to telephones that have been cosmetically damaged or used as display models.

Customers purchasing in-place sets, or sets from inventory may pay for such purchase over a three month period. Payment may be made by bank credit card, cash or check.

PARTY-LINE CUSTOMER PREMISES EQUIPMENT

Party-line customers may purchase their own premises equipment from either the telephone company or other vendors. However, because of potential compatibility problems, the customer is urged to investigate such problems with the telephone company before making purchase.

If purchased or leased party-line equipment that is compatible with telephone company facilities, requires further modification because of any new arrangements of facilities by the telephone company, the telephone company is responsible for such modification.

Should customer purchase party-line equipment from another vendor, the telephone company will make a reasonable effort to modify the equipment to make it compatible for a charge of \$15.00, plus parts, if available. The equipment should as a minimum include changeable ringer leads, 3 conductor cords, removable housing, and have a wiring conversion chart.

Party-line customers may not use automatic answering devices which answer any ring on the line, nor automatic dialers which seize the line externally from the telephone.

PENNSYLVANIA TELECOMMUNICATIONS RELAY SERVICE

1. General

The Pennsylvania Telecommunications Relay Service is a Relay telecommunication service for the deaf, hearing and/or speech disabled population of the Commonwealth. The service permits telephone communications between deaf, hearing, and/or speech disabled individuals who must use a Text Telephone and individuals with normal hearing and speech as provided in the tariff filed by AT&T Communications of Pennsylvania, Inc.

2. Surcharge

In addition to the charges provided in this tariff and other intrastate toll tariffs in which this Company concurs, a surcharge will apply to all residence and business access lines served by this Company. This surcharge applies regardless of whether or not the access line uses the Pennsylvania Telecommunications Relay Service.

This surcharge serves as the funding vehicle for the operation of the Pennsylvania Telecommunications Relay Service, and shall be calculated by the Pennsylvania Public Utility Commission (the Commission). The Commission shall compute the Pennsylvania Telecommunications Relay Service Surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve month period commencing with July 1 of each year.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

The following surcharge rates apply to all bills issued on or after July 1, 2008: (C)

Per residence access line, per month	<u>\$0.08</u>	
Per business access line, per month	<u>\$0.08</u>	(D)

Centrex lines will be charged on an equivalency basis as determined by the Commission.

911 TARIFF LANGUAGE

1. GLOSSARY OF TERMS

Host Telephone Company: The service provider, which is also the telecommunications public utility that provides 9-1-1 service to the county/municipality, and that houses the Automatic Location Identification (ALI)/MSAG data used for providing 9-1-1 service.

Telephone Company: A telecommunications public utility regulated by the Pennsylvania Public Utility Commission and which has or requests access to the county/municipality 9-1-1 system or connection to the serving selective router, including, but not limited to, local exchange carriers and competitive local exchange carriers. This term is synonymous with ‘service provider’.

Content: The data elements of the MSAG including (but not necessarily limited to) the data elements that are entered into the following fields A-I of a standard MSAG record:

- A. Tax area record
- B. Locality
- C. Street
- D. Thoroughfare
- E. Directional [where required]
- F. Even (E), odd (O), or all (A) [applied to house numbers]
- G. Low-high range of house numbers
- H. PSAP (Public Safety Answering Point)
- I. LAT/LONG (Latitude/Longitude) [where required]

Formatting. Format: Shall include changes to the identity of fields, order of fields, and number and arrangement of data elements in each field, and a telephone company’s rearrangement or regrouping of such data, without changing the MSAG content, for purposes of validating against MSAG records.

2. REGULATIONS

- A. The Telephone Company will comply with the Protocols as set forth in, and in the form of, Service Provider E-9-1-1 Protocols, Service Provider E-9-1-1 Questionnaire and Testing Procedures in accordance with the Petition of Bell Atlantic-Pennsylvania, Inc. for a Declaratory Order (MSAG); Docket No. P-00971203; Settlement Agreement of all Parties and Joint Petition entered August 7, 1998.
- B. The Telephone Company is indemnified under the Public Safety Emergency Telephone Act, Act 78 of 1990.
- C. The Telephone Company’s liability and insurance provisions are fully stated in Pa. P.U.C. No. 1, Section 1, General Regulations.
- D. Cases of Service interruptions affecting public health and safety shall receive priority attention under any and all conditions, particularly in time of disaster. Every appropriate resource will be utilized. The service provider will make reasonable best efforts to have its system fully functional as soon as possible, unless conditions beyond the service provider’s control prevent service restoration.

2. REGULATIONS (cont'd)

- E. The service provider will not use the county's/municipality's MSAG for any purpose that is not directly related to and required for the provision of 9-1-1 service.
- F. The Host Telephone Company will install the county's/municipality's MSAG in 'read/write' format and will not modify the content of the MSAG unless requested or permitted to do so by the county/municipality. A request to modify content by the Host Telephone Company shall be responded to by the county/municipality within (10) business days or the request is deemed to be approved. The request shall be in writing and shall set forth in reasonable detail the proposed modification and all reasons in support. The request shall be granted provided the modification is necessary for the Host Telephone Company's provision, maintenance, or upgrading of the 9-1-1 service.
- G. The Telephone Company shall not otherwise modify the content of the MSAG, but may make formatting changes approved by the county/municipality necessary to enable the MSAG to conform to the telephone company's information system(s). The request shall be in writing and shall set forth in reasonable detail the formatting changes and all reasons in support. The county/municipality shall respond to the request in ten (10) business days or the request is deemed to be approved. The request shall be granted provided the formatting change does not impair the integrity and accuracy of the MSAG database. For the purposes of this regulation, a content or formatting change does not include the use of the MSAG content in telephone companies' operational support systems to validate customer information for input to the ALI database.
- H. The service provider will not sell, lease, rent, loan or provide, or transfer the county's/municipality's MSAG to any other person(s) or entity(ies) without the express written authorization of the county's/municipality's 9-1-1 coordinator, or his or her designee.
- I. The Telephone Company will not, without the written consent of the county/municipality, modify or create any derivative of the county's/municipality's MSAG, except as follows: one (1) mirror image copy of the MSAG may be made in electronic form for archival purposes (the copy may be made in read/write format by the host telephone company, but shall be made solely in read-only format by all other telephone companies), and the telephone company may make a mirror image copy, solely in read-only format and only for database reconciliation, address verification for new connections of service, and other functions that are necessary to ensure that the name and address information provided by the service provider to the county/municipality is accurate and conforms to the county's/municipality's MSAG format.

MISCELLANEOUS SERVICE AND EQUIPMENT

CUSTOM CALLING SERVICES

A. General

Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices arranged to provide such services. The number of Custom Calling Services available depends upon the exchange central office providing the service and is subject to the availability of its facilities.

B. Service Descriptions

1. Call Forwarding

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

2. Call Forwarding-Busy (Customer Programmable)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

3. Call Forward-No Answer (Customer Programmable)

This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

MISCELLANEOUS SERVICE AND EQUIPMENT

CUSTOM CALLING SERVICES (Continued)

B. Service Descriptions (Continued)

4. Call Forwarding-Remote Access

This service allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

5. 3-Way Calling

This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-way calls are subject to transmission limitations and all applicable local and long distance charges.

6. Call Transfer

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

7. Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

MISCELLANEOUS SERVICE AND EQUIPMENT

CUSTOM CALLING SERVICES (Continued)

B. Service Descriptions (Continued)

8. Home Intercom-Basic

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

9. Warm Line

This service allows a call to be automatically placed to a pre-assigned number determined by the customer. The call will be placed once the customer's phone has been off-hook for a predetermined time-out period. The time-out period may be set at 1 to 14 seconds. During the time-out period the customer will receive a normal dial tone and can originate calls. Once the time-out period has expired, a call is automatically placed to the pre-assigned number as programmed by the Company.

10. Hotline

This service allows a call to be automatically placed to a pre-assigned number determined by the customer as soon as the customer's phone goes off-hook. The Company will program the pre-assigned number for the customer.

11. Personal Ringing

This service allows the customer to have up to two distinct telephone numbers on a single line. The second number will have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all four telephone numbers can be forwarded.

12. Speed Call 8

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

B. Service Descriptions (Continued)

13. Speed Call 30

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

14. Toll Restriction

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

C. Limitations

1. Custom Calling Services require special central office equipment and will be provided only where facilities are available.
2. Custom Calling Services are only available on single-line party service.
3. Custom Calling Services will not be provided in connection with Paystation Service (except for the business line extension) or Private Branch Exchange Trunk Line Service.

MISCELLANEOUS SERVICE AND EQUIPMENT

ADVANCED CALLING SERVICES

A. **GENERAL**

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allow customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

B. **SERVICE DESCRIPTION**

1. **ANONYMOUS CALL REJECTION**

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking services. Such calls will be routed to a Company recorded announcement.

2. **CALL REJECTION**

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers from which he/she does not wish to receive calls. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

ADVANCED CALLING SERVICES (Continued)

B. **SERVICE DESCRIPTION** (Continued)

3. **CALL RETURN**

This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call can not be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

Call Return is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Return will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

4. **PREFERRED CALL FORWARDING**

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

5. **PRIORITY RINGING**

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

B. **SERVICE DESCRIPTION** (Continued)

6. **REPEAT DIALING**

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation.

Repeat Dialing is available on a flat monthly rate basis and a pay-per-use basis. Pay-per-use Repeat Dialing will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

7. **SPECIAL CALL ACCEPTANCE**

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

8. **CALLER ID**

Caller ID - Basic (Number only) and Caller ID-Deluxe (Name and Number) are the available services.

a) **Caller ID - Basic**

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery.

b) **Caller ID - Deluxe**

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission. The Company will forward all telephone numbers and names where technically feasible.

If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery.

9. **CALLER ID BLOCKING**

Caller ID Blocking allows the caller to prevent the delivery of his/her calling data to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

a) **Caller ID Blocking - Per Call**

This service will block the delivery of the caller's data to a Caller ID subscriber for one call only and may be activated from all single party access lines by dialing *67 (1167 from a rotary phone) prior to placing the call. Caller ID Blocking - per call is provided to all customers at no charge.

Per call blocking will be provided on calls originating from public, semi-public or other paystations used by the general public and party lines.

b) **Caller ID Blocking - Per Line**

This service will automatically block the delivery of the caller's data to a Caller ID subscriber on all calls and will be made available or offered, at no charge, to law enforcement agencies and domestic violence programs. Per line blocking can be deactivated by dialing *82 (1182 from a rotary phone) prior to placing the call.

To complete a call to a Caller ID or Caller ID Deluxe subscriber that has

activated Anonymous Call Rejection:

- 1) Place the call by unblocking the telephone number; or
- 2) Place the call through an operator which may involve charges in addition to the cost of the call.

The live operator surcharge will be waived for victims of domestic violence, the staffs of domestic violence program agencies (when involved in domestic violence counseling) and emergency services personnel (while in the performance of their jobs). If the operator surcharge cannot be waived when the call is being placed, the Company will, upon notification, credit the live operator surcharge amount to the aforementioned party's telephone bill. Furthermore, should alternative methods become available in the future which permit the aforementioned to access the ACR party without revealing the caller's telephone number, the Company will waive any additional charges associated with such methods.

10. CALL TRACE

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Telephone Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. Call Trace detail will be retained by the company and made available to the local law enforcement for ten business days after the trace has been initiated.

(C)
|
(C)

Call Trace may not capture incoming telephone numbers marked "private" or "out of area".

Only calls from locations with compatible signaling services are traceable using Call Trace.

Call Trace is available on a pay-per-use basis with a per activation rate. Upon completion of a successful trace the customer will be assessed the Call Trace fee that will appear on the customer's next bill.

C. **SPECIAL CONDITIONS AND LIMITATIONS**

1) Special Conditions for Caller ID:

a) An originating caller's data may not be displayed to the called party under the following conditions:

- The caller's data will not be displayed if the called party is off-hook. The called party must be on-hook to receive the caller's data.
- The caller's data will not be displayed if the called party answers the incoming call during the first ring interval.
- Caller ID services cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the data message.

ADVANCED CALLING SERVICES (Continued)

C. **SPECIAL CONDITIONS AND LIMITATIONS** (Continued)

1) Special Conditions for Caller ID: (Continued)

- Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number or name and number (if available) of the PBX or Key System will be displayed.
- Caller ID services cannot be provided if the calling party is from a multi-party line. The called party will receive an “Unavailable” display.
- The caller’s data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party’s office.
- The calling party has activated blocking.
- Caller ID services do not display a directory number or name and number (if available) for operator assisted calls, calls marked private by the originator or calls originating from pay and party line stations.

b) The following special conditions apply to Caller ID services based on the FCC Caller ID Order effective 12/1/95:

- If a customer dials a "1-800" or other Automatic Number Identification (ANI) Service number, the telephone number that they are calling from will be revealed to the called party through ANI technology. Even if the customer has per line blocking or has activated per call blocking, the 800 number party has the right to obtain this information through ANI.
- ANI information may not be reused or resold for other purposes without a caller’s consent, even where the called party has paid for the call.
- Caller ID services are available on all long distance calls where technically feasible.
- All calling data will be displayed to E911 through ANI technology, even if the customer has per line blocking or has activated per call blocking.
- All calling data will be passed, even for customers who do not subscribe to Caller ID.
- Per Call Blocking will be available to all customers.

C. **SPECIAL CONDITIONS AND LIMITATIONS** (Continued)

2) Limitations of Advanced Calling Services:

The management of these services is possible only:

- Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party;
- When both the originating customer and the call terminating customer are served from the same central office;
- When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities;
- If offering Caller ID - Deluxe, the Calling Name will be displayed only where appropriate facilities are available to provide a match of Calling Name to Calling Number.

The Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failures, or malfunctions of ACS Services or equipment. Such damages of services after the Company has been notified, and has had reasonable time for repair, shall in no event exceed an amount equivalent to the rates charged for the service affected from the time the customer gives notice until service is restored.

It shall be the responsibility of the customer to provide customer premise equipment (CPE) compatible with ACS.

MISCELLANEOUS SERVICE AND EQUIPMENT**RELOCATION FORWARDING SERVICE****A. GENERAL**

Relocation Forwarding Service (RFS) is a voice only application service which allows calls sent to a telephone number programmed in the central office to automatically forward to a customer's terminating premises equipment or voice mail box. The customer's premise equipment or voice mail box may be located in the same or different exchange from the call forwarding location.

B. CONDITIONS AND LIMITATIONS

1. RFS service is offered subject to availability of suitable facilities.
2. RFS is provided on the condition that the Telephone Company's facilities are able to adequately handle calls to the RFS customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, the facilities are inadequate to handle the calls to the RFS customer, the customer will be required to pay for the cost of additional services and facilities.
3. Customers subscribing to this service are responsible for any toll call charges between the call forwarding location and the terminating point.
4. One listing in the white and yellow page directories, covering the exchange in which the call forwarding central office is located, is provided without additional charge.
5. The minimum service period is one month.
6. RFS service is not offered where the terminating station is a coin telephone.

PAY TELEPHONE LINE SERVICE

13. GENERAL

3. Pay Telephone Line exchange service is one-party exchange service for use by pay telephone providers, location owners and interexchange carriers and is furnished solely for connection with coin, coinless, or combination coin/coinless pay telephone equipment to the Telephone Company's network.
4. Pay Telephone Line Service:
 3. Is available in all exchanges of the Company; foreign exchange service is not available to these lines.
 4. Provides for one listing in the white pages and one listing in the yellow pages of the Telephone Company directory for each Pay Telephone Line furnished. However, Non-published Number Service or Non-Listed Number Service at no charge are also available to Pay Telephone Line customers.
 5. Only one coin-operated or coinless public access telephone unit may be connected to each Pay Telephone Line.
 6. Will be provided on a dial-tone-first basis to enable end users to dial certain calls without requiring coin deposits, i.e., all emergency calls, telecommunications relay service calls, and non-sent paid calls.
 7. Service will be provided on a two-way basis, except lines for which a specific exemption has been granted by the Pennsylvania Public Utility Commission.
 8. The pay telephone provider is responsible for meeting all federal, state and local statutes with respect to provision of pay telephones in accordance with all hearing impaired and handicapped person requirements.
 9. Temporary suspension of service (vacation service) is not available for Pay Telephone Line Service.
 10. Pay telephones connected to a Pay Telephone Line must be registered in compliance with Part 68 of the FCC's rules and Regulations.
 11. Each pay telephone connected to a Pay Telephone Line must be capable of providing user call completion to 911 Universal Emergency Service, if available. If 911 service is not available, the pay telephone must permit access to the operator.
 12. Failure of the subscriber to comply with the provisions of this Tariff may result in the suspension or disconnection of the subscriber's service.
