The Bentleyville Telephone
Company

Section 1
Original Sheet 2

GENERAL REGULATIONS

A. APPLICATION OF RATES

The regulations and schedules of charges in this tariff govern the furnishing of telephone service and facilities by the Bentleyville Telephone Company, hereafter referred to as the Company, within its operating territory in the state of Pennsylvania.

In addition to the regulations and schedule of charges herein, this tariff is subject to specific regulations as set forth in 52 PA Code Chapter 64, "Standards & Billing Practices for Residential Telephone Services," and other regulations as may be prescribed by the PA P.U.C.

This tariff supplements and governs all other applicable tariffs of the Company and also any tariffs or portions of tariffs of other companies with which this Company concurs.

B. USE OF SERVICE

1. Telephone Service Defined

The term "service" as used throughout this tariff refers to the cable distribution and the switching equipment required to establish and maintain connections between customers within the local calling area and connections with the toll (long distance) network.

2. Abuse or Fraudulent Use

Service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes, but is not limited to:

- a. The use of service or facilities of this Company for a call or calls anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse torment, or harass another.
- b. The use of profane or obscene language.
- c. The impersonation of another with fraudulent intent.
- d. Listening in on party line conversations.

GENERAL REGULATIONS (Cont'd)

B. USE OF SERVICE (Cont'd)

2. Abuse or Fraudulent Use (Cont'd)

- e. Excessive use of party lines
- f. The use of the service in such a manner as to interfere with the service of others or to prevent others from making or receiving calls over their telephone service.
- g. The use of the service for any purpose other than as a means of communication.
- h. The use of service or facilities of this Company to transmit a message or to locate a person or otherwise to give or obtain information, without the payment of the applicable local message charge or message toll charge.
- i. The obtaining, or attempting to obtain, or assisting another to obtain or attempt to obtain, network access by rearranging, tampering with, or making connection with any facilities of this Company or by any trick, or scheme, false representation, false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or part, of the regular charge for network access.

3. Obligation to Furnish Service

- a. Availability of Facilities
The Company's obligation to furnish service is dependent upon its ability to secure and retain without unreasonable expense, suitable facilities and rights for the construction, installation, testing and maintenance of the necessary pole lines, circuits and equipment.
- b. Liability of the Company
The customer has exclusive control of his communications over the facilities furnished him by the Company. Unavoidable errors incident to the services and to the use of such facilities are subject to the terms, conditions and limitations herein specified.

The Bentleyville Telephone
Company

Section 1
1st Revised Sheet 4
Cancels Original Sheet 4

GENERAL REGULATIONS (Cont'd)

B. USE OF SERVICE (Cont'd)

3. Obligation to Furnish Service (Cont'd)

b. Liability of the Company (Cont'd)

The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission occurring in the course of furnishing service or facilities and not caused by customer-owned and maintained equipment, or facilities, or by the negligence of the customer, or by the negligence of the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, or error or defect in transmission occurs. However, if, in the case of such interruption, service is restored on or before detected by the Company, no allowance will be made. The Company accepts no responsibility for interference in privacy of communications unless caused by negligence on the part of the Company. (C)

The customer indemnifies and saves the Company harmless against claims for libel, slander, fraudulent or arising from the improper use of material transmitted over its facilities including that which is recorded, claims for infringement of patents arising from combining with, or using in connection with; facilities of the Company, any apparatus or systems of the customer and all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company.

The customer, for equipment and/or facilities used in an explosive atmosphere, indemnifies and saves the Company harmless from and against any and all losses, costs, charges, expenses, and payments, resulting from injury to or death of persons or damage to property and from and against any and all claims, demands, actions or judgments, for such injury, death or damage, arising out of, resulting from, or in any manner caused by (C)

(C) Indicates Change

The Bentleyville Telephone
Company

Section 1
Original Sheet 5

GENERAL REGULATIONS (Cont'd)

B. USE OF SERVICE (Cont'd)

3. Obligation to Furnish Service (Cont'd)

b. Liability of the Company (Cont'd)

the presence, location, use, operation, installation, maintenance, repair, replacement or removal of such equipment or facilities, or the acts or omissions of the employees or agents of the customer in connection with such equipment, or facilities used in connection therewith, except when such injury, death or damage is caused by the sole negligence of the Company, its employees or agents.

Telephone service provided by the Company is not represented as adapted to the recording of telephone conversations, incoming messages, or to the transmission of prerecorded messages. The use of customer-provided recording, reproducing, automatic answering and recording equipment, other customer-owned and maintained equipment and other customer-provided facilities in connection with the facilities of the Company are permitted only on the condition that the liability of the Company shall in no instance be greater than that provided in the preceding damage, impairment or failure of service, arising out from or in connection with, the use of customer-owned and maintained facilities or equipment not caused solely by negligence of the Company.

The Telephone Company reserves the reciprocal right to maintain its contractual relationship with a customer where a third party to such relationship has unilaterally introduced itself to act in the customers stead on telephone contractual matters, proprietary rights.

c. Priority of Service

In case a shortage of facilities exists at any time, either for temporary or protracted periods, the establishment of network access services shall take precedence over all other services.

Issued: August 31, 1989

Effective: February 9, 1990

GENERAL REGULATIONS (Cont'd)

B. USE OF SERVICE (Cont'd)

3. Obligation to Furnish Service (Cont'd)

d. Directory Errors and Omissions (Cont'd)

The Company's liability arising from errors or omissions in its directories or in accepting listings presented by customers or prospective customers shall be limited to the customer's service and the company may discharge such liability by an abatement or/refund of an amount not exceeding the directory or listing charge for the service during the period covered by the directory in which the error or omission occurs.

The Company will not be a party to controversies arising between customers or others as a result of listing published in its directories.

e. Transmitting Messages

Except as otherwise specifically provided in this tariff, the Company does not transmit messages but offers the use of its facilities for communications between customers.

f. Acts of Other Companies

When the lines of another company are used in establishing connections to points not reached by the Company's lines, the Company shall not be held liable for any act or omission of the other company.

g. Defacement of Premises

The Company is not liable for any defacement of or damage to the premises of a customer resulting from the attachment of the Company's instruments, apparatus, and associated wiring on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the Company.

h. Recordings

Since the customer and calling parties have exclusive control over the quality and characteristics of messages recorded, the Company has no liability for the quality of, or defects in, the recordings of such messages.

GENERAL REGULATIONS (Cont'd)

B. USE OF SERVICE (Cont'd)

3. Obligation to Furnish Service (Cont'd)

I. Provision of Facilities

Equipment and facilities necessary for the provision of a given service will be furnished by the Company, except as otherwise provided in this tariff.

4. Obligation of the Customer

a. Damage to Company Facilities

In the event Company property is damaged, lost, stolen or destroyed through the negligence or willful act of the customer or other persons authorized to use the service, and not due to ordinary wear and tear, the customer shall be required to pay the expense incurred by the Company in connection with its restoration to original condition or its replacement.

b. Commercial Power

Suitable commercial power including outlets, where required for the operation of any equipment or system furnished by the Company on the premises of the customer, shall be furnished by the customer.

c. Space

The customer shall provide suitable and sufficient space for any switching, terminal, distributing and other equipment associated with a given service.

d. Operation at the Premises

All operation at the customer's premises is performed by, and at the expense of the customer and must conform with the operating practices and procedures the Company may adopt to maintain a proper standard of service.

e. Access to Premises of the Customer

For the purpose of installing, repairing, inspecting or removing any part of its equipment, apparatus or lines on the premises of the subscriber, or for making collections, the agents and employees of the Telephone Company shall have entrance thereto at any reasonable hour.

GENERAL REGULATIONS (Cont'd)

B. USE OF SERVICE (Cont'd)

5. Special Equipment and Service Arrangements

In cases where customers desire a special type of service for which provision is not otherwise made, a monthly rate and charge is quoted based on the actual cost of furnishing such service, when in the judgement of the Company there is not reason for refusing to render the special service desired.

6. Equipment and Channels

Equipment and channels furnished by the Company on the premises of a customer are the property of the Company, whose agents and employees shall have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, maintaining or repairing the equipment, telephone and lines, or for the purpose of making collections from coin boxes, or upon termination of the service, for the purpose of removing such equipment, telephones and lines.

7. Compliance with FCC Rules and Regulations Governing Network Access

All connections to the network by the Company or by the customer must comply with the Rules and Regulation of the Federal Communications Commission (FCC) as are now in effect or implemented in the future.

GENERAL REGULATIONS (Cont'd)

B. USE OF SERVICE (Cont'd)

8. Customer-Owned and Maintained Equipment

It is an obligation of the customer to insure that the magnitude and character of voltage and current transmitted from customer-owned and maintained facilities and equipment, the operation and maintenance of such facilities and equipment shall not interfere with any of the services offered by the Company or interfere with others. The characteristics of customer-owned and maintained facilities and equipment shall be such that its connection to the network will not interfere with network services. The character and location of customer-owned and maintained equipment and of the apparatus and sources of power to which such equipment may be connected shall be such as not to cause damage to Company plant or injury to Company employees or customer. Upon notice from the Company that the equipment of the customer is causing or is likely to cause hazard or interference, the customer shall make such changes as may be necessary to remove or prevent such hazard or interference.

The Company may interrupt the connection if at any time such action should become necessary in order to protect any of its services because of departure from the preceding compatibility requirements.

Additionally, provisions regarding Customer-Owned and Maintained Equipment and Customer Provided Inside Wire may be found in Section 8 of this tariff.

C. ESTABLISHMENT AND FURNISHING OF SERVICE

1. Installation, Relocation, Maintenance and Repairs

The facilities owned by the Company must be installed, relocated, maintained and repaired by the Company. However, the Company reserves the right to require the customer to install and maintain, in accordance with the Company's specifications, facilities furnished by the Company located in places where such installation and maintenance by the employees of the Company would involve unusual hazard. The customer shall be responsible for damage to facilities of the Company caused by the negligence or willful act of the customer or by the location of the facilities to meet the customer's requirements at points involving disconnect, remove or attempt to repair or permit others to rearrange disconnect, remove or attempt to repair any equipment installed by the Company except upon the consent by the Company.

GENERAL REGULATIONS (Cont'd)

C. ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

1. Installation, Relocation, Maintenance and Repairs
(Cont'd)

If extraneous electrical impulses and/or other interference are present at the customer's premises and require Company equipment or facilities to be modified, such modification shall be performed by the Company and the cost thereof shall be borne by the customer. If modification of customer-owned and maintained facilities is required, the customer is responsible for modification and shall bear the cost.

2. Cancellation or Change of Application for Service
Prior to Establishment

When an application for service is canceled or changed, in whole or in part, by the applicant prior to the establishment of service, the applicant is required to pay the Company, upon request, the aggregate of the costs and expenses incurred by the Company, for any work performed upon the application prior to the cancellation or change of the service. The payment to the Company required of the applicant shall not exceed the aggregate of the nonrecurring and minimum contract period charges, including, but not limited to, construction and termination charges, which would have applied if the service and facilities had been established prior to such cancellation, change or change in location.

3. Transfer of Service from One Customer to Another

Transfer of service from one customer to another is permitted subject to the application of termination charges and service charges in accordance with this tariff.

The call number associated with the telephone service to be transferred may, upon request of either customer, be associated with the new customer's service if the new customer assumes all charges outstanding at the time of transfer and obtains, if requested by the Company, the written consent of the Customer from whom the service is transferred.

GENERAL REGULATIONS (cont'd)

C. ESTABLISHMENT AND FURNISHING OF SERVICE (cont'd)

4. Business and Residence Classifications

Business rates are applicable in connection with service furnished at a business location or any other place where the service is used primarily or dominantly for business, professional, institutional or occupational purposes. Business rates apply to all multiple location outlets when any of the outlets appear at a location classified as business service.

Residence rates apply in private residence where the service is used primarily or dominantly for nonbusiness purposes. Final determination as to business or residence classification remains with the Company.

4a. Win Back Customer

A customer who has ported their number from FairPoint to a digital phone or wireless provider for their local service and now would like to return to FairPoint as the provider of their local service.

(C)
—
(C)

5. Telephone Directories

The Company will provide one company designated telephone directory at no additional charge for each local exchange access line.

6. Telephone Numbers

The area code, or codes, central office designations, or destinations, or line number, or numbers, or all of them, to be associated with a customer's telephone service shall be determined by the Company; and the Company reserves the right to change such codes, designations, or numbers, or all of them, associated with a customer's telephone service as the conduct of the business may require. The customer has no proprietary right in any area code, central office designation, or line number.

7. Overtime Work

When, at the subscriber's request, work is performed at other than regular business hours of the Company, an extra charge for such work will be made to compensate for the current overtime wage rate.

8. Standby Workmen

In situations such as sporting events, one-time entertainment events, etc., where the customer requests that "standby workmen" be provided to safeguard the continuity of service, the entire cost of providing those "standby workmen" may be billed to the customer, regardless of whether such "standby workmen" were provided during regular or overtime working hours.

(C) Indicates Change

GENERAL REGULATIONS (cont'd)

C. ESTABLISHMENT AND FURNISHING OF SERVICE (cont'd)

9. Toll Message Rates

Rates, rules and regulations governing toll or long distance messages are contained in the toll tariffs of the Pennsylvania Telephone Association and interexchange carriers lawfully operating within the Commonwealth of Pennsylvania.

D. BILLING AND PAYMENTS

1. Contracts for Service

Upon acceptance of an application for service, all the applicable provisions in the Company's tariffs lawfully on file become the contract between the customer and the Company. The Company reserves the right to require applications for service to be made in writing on forms supplied by it. Two forms of identification may be required as proof of the identity of an applicant, in which case, applications will be processed after identification has been established.

Requests for additional service and requests for changes in service, upon acceptance thereof by the Company become a part of the original contract, except that each item of additional service so installed is subject to the appropriate minimum period. The acceptance or use of service may be deemed an application for such service and an agreement to pay for it at the rates applicable thereto under the current tariff. Any change in rates or regulations lawfully made, acts as a modification of all contracts to that extent without further notice.

Except as otherwise provided in other sections of this tariff, service is furnished for a minimum contract term of one month. The Company also reserves the right to refuse service to those applicants who are indebted to the Company for service previously rendered until the indebtedness is satisfied or payment arrangements made.

FCC DESIGNATED 811 SERVICES

As mandated by the Federal Communications Commission (FCC), in compliance with the Pipeline Safety Improvement Act of 2002, the abbreviated 811 Dialing Code is established for use by commercial and residential consumers to provide advanced notice of excavation activities to certified "One Call" notification systems entities as a toll free call. The certified "One Call" notification systems entity must subscribe to termination facilities and lines in sufficient quantities to provide adequate service to the public. 811 Service is provided for the benefit of the certified "One Call" notification systems entity on a special charge treatment basis as detailed in Section 1, Sheet 8 of this tariff. The provision of 811 Dialing Code by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the certified "One Call" notification systems entity.

The maximum liability of the Company for direct damages or losses of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company, occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, will in no event exceed an amount equivalent to the proportionate charge to the certified "One Call" notification systems entity for the 811 Service and local exchange services for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs. The Company will have no liability for any consequential, incidental, or indirect damages or losses, whether or not the customer was aware or should have been aware of the possibility of these damages or losses. The Company is not liable for any losses or damages caused by the negligence or willful misconduct of the certified "One Call" notification systems entity.

2. Deposits

A deposit, in accordance with Commission regulations at 52Pa. Code, §§ 64.31 - 64.41 may be required as security for future bills. Interest rates applied to customer deposits held by the Telephone Company are prescribed by the PUC.

(C) Indicates Change

GENERAL REGULATIONS (cont'd)

D. BILLING AND PAYMENTS (cont'd)

4. Payment for Service (cont'd)

- c. Charges billed to his credit card number by the customer or by any person with his knowledge or consent.

Charges for toll message service are billed after the service has been rendered and are payable on request.

If objection in writing is not received by the Company within thirty (30) days after a statement of account is rendered such statement shall be deemed to be correct and binding upon the customer.

5. Allowance for Service Interruptions

Pennsylvania Public Utility Commission, Docket #73130,
Rule 14:

When main telephone service is interrupted for a period of at least 24 hours, the Company, after due notice by the customer, shall apply the following schedule of allowances except in situations as provided in Paragraph 2:

1. (a) 1/30 of the tariffed monthly rate of all services and facilities furnished by the Company rendered inoperative by the Company to the extent of being useless for each of the first three (3) full 24 hour periods during which the interruption continues after notice by the customer of the Company's condition that the out-of-service extends beyond a minimum period of 24 hours.

(b) 2/30 of each full 24 hours period beyond the first three 24 hour periods. However, in no instance shall the allowance for the out-of-service period exceed the total charges in a billing period for the service and facilities furnished by the Company rendered inoperative to the extent of being useless.

2. When service is interrupted for a period of at least 24 hours due to such factors as storms, fires, floods, or other conditions beyond the control of the Company, an allowance of 1/30 of the tariffed monthly rate for all services and facilities furnished by the Company rendered inoperative to the extent of being useless shall apply for each full 24 hours during which the interruption continue after notice by the customer to the Company.

The Bentleyville Telephone
Company
Canceling

Section 1
1st Revised Sheet 15
Original Sheet 15

GENERAL REGULATIONS (cont'd)

D. BILLING AND PAYMENTS (cont'd)

5. Allowances for Service Interruptions (cont'd)

Nothing contained herein and not tariff adopted hereto shall limit any responsibility or liability on the part of a Telephone Company to a customer which would exist pursuant to law but for this rule and said tariff.

The foregoing allowances shall not be applicable where service is interrupted by the negligence or willful act of the customer or where the Company pursuant to the terms of the contract for service suspends or terminates service for nonpayment of charges or for unlawful or improper use of facilities or for any other reason provided for in the filed and effective tariff.

6. Return Check Charge

The customer whose check is returned to the Company from the bank will be billed a return check charge of \$20.00. (I)

7. Cancellation for Cause

The Company may, following proper notice without incurring any liability, either suspend or terminate the service for any of the following reasons:

- (a) Abandonment of Service.
- (b) Nonpayment of service.
- (c) Use of foul or profane language over the network access line if complaints are received and verified by the Company.
- (d) Impersonation of another person with fraudulent intent over the network access line.
- (e) Making nuisance calls.
- (f) Use of service by a customer in connection with a plan or contrivance to secure a large volume of calls to be directed to such customer at or about the same time, resulting in preventing, obstructing, or delaying the service of others.
- (g) Listening in on party line conversations or excessive use of party line service.

(I) Indicates Increase

The Bentleyville Telephone
Company

Section 1
Original Sheet 16

GENERAL REGULATIONS (cont'd)

D. BILLING AND PAYMENTS (cont'd)

7. Cancellation for Cause (cont'd)

(h) Abuse or fraudulent use of service which includes the following:

(1) The use of service or facilities of the Company to transmit a message or to locate a person or other wise to give or obtain information, without payment of the applicable charge.

(2) The obtaining, or attempting to obtain, or assisting in attempts to obtain service, by rearranging, tampering with, or making connection with any facilities of the Company or by any trick scheme, false representation of false credit device, or by or through any other fraudulent means or device whatsoever, with the intent to avoid the payment, in whole or in part, of the established charges for such service.

(i) Use of service for unlawful purposes as identified by due legal process.

(j) Nonpayment of deposit required by the Company.

(k) Any other violation of the rules, regulations and conditions as set forth in the Company's filled tariffs.

The Company may terminate service, without advance notice, for the following reasons:

(1) Use of service in such manner as to interfere with the service of others.

(2) Use of the service for any purpose, other than as a means of communication which interferes with the service of others.

The Company may after due notice, continue such suspension of service until all charges due have been paid and all violations have ceased, or terminate the service and disconnect and remove any of its equipment from the customer's premises.

GENERAL REGULATIONS (cont'd)

D. BILLING AND PAYMENTS (cont'd)

8. State Tax Adjustment Surcharge

In addition to the charges provided in this tariff and other state toll and access tariffs in which this company concurs, a surcharge, as shown below, will apply to all intrastate charges for service on or after September 1, 2010, except on calls from pay telephones. (C)

For services provided to:	<u>SURCHARGE</u> <u>RATE</u>	
END USER	-0.938 %	(I)
ACCESS USER & LOCAL EXCHANGE CARRIERS	-0.894 %	(I)

The above charges will be recomputed, using the same elements prescribed by the Commission:

- a. Whenever any of the tax rates used in calculation of the surcharge are changed.
- b. Whenever the utility makes effective any increased or decreased rates.
- c. And on March 31, 1971, and each year thereafter.

The above recalculations will be submitted to the Commission within 10 days after the occurrence of the event or date which occasions such recomputations; and that if the recomputed surcharge is less than the one in effect the Utility will, and if the recomputed surcharge is more than the one then in effect the Utility may submit the such recomputation a tariff or supplement to reflect such recomputed surcharge, the effective date which shall be 10 days after filing.

GENERAL REGULATIONS (cont'd)

E. SALES PROVISION

The Telephone Company may, from time to time waive or lower the recurring and/or nonrecurring charges for services listed below subject to the following regulations. (C)

1. REGULATIONS

The sales provision may be offered for a maximum period of six months in any rolling twelve month period which commences as of the effective date of the filed promotion (multiple promotions can occur during this twelve month period). The Company will notify the Commission ten (10) days in advance of any such customer promotional offering.

The Telephone Company will notify subscribers of the waiver or reduction of recurring and/or nonrecurring charges by any or all of the following methods: Direct mail, bill inserts, telemarketing, newspapers, radio/television and by signs posted on Company premises which are accessible to the general public. However, the Telephone Company is not limited to these methods and shall not be held liable for the lack of notification to subscribers.

For the limited purpose of this sales provision, the applicable recurring and/or nonrecurring charges shall be those in effect on the date the subscriber orders the service from the Telephone Company.

At the conclusion of each promotional period, the subscriber may elect to retain any or all of the services offered. The subscriber will be responsible for any applicable monthly rates only from the time service is permanently established following the end of the promotional period. However, in no case will the subscriber default to retaining any promotional service. The subscriber will be required to respond, using the prescribed method, by the end of the promotional period to retain any or all services. If the subscriber does not respond within that promotional period, the promotional service(s) will be disconnected without charge. (C)

(C) Indicates Change

GENERAL REGULATIONS (cont'd)

F. SCHOOL AND LIBRARY DISCOUNTS

1. Regulations

The Company shall offer school customers in its service territory, that meet the eligibility standards described in 47 CFR §54.501 (relating to eligibility for services provided by telecommunications carrier) and that agree to enter into a minimum three-year contract, a thirty percent (30%) discount in the otherwise applicable tariffed distance sensitive per-mile rate element, and also will waive the associated nonrecurring charges, for available intrastate broadband services (as defined by Act 183 of 2004) where used for educational purposes and not for the provision of telecommunications services to the public for compensation. The discount or waiver shall not be required where application of it to a particular service would conflict with applicable law.

SERVICE CHARGES

A. APPLICATIONS

Service connection charges herein described, apply to all ordering or charges applying to the ordering, installing, moving, changing, rearranging and furnishing of telephone service and miscellaneous and supplemental equipment and other telephone facilities. The charges are separately established as follows in order to provide a reasonable basis for an equitable recovery of the costs incurred in the required operations.

1. Service Order Charge

Applicable on each customer order for all work or service ordered to be provided or changed, or reconnected at one time at the same location for the same customer. These charges cover work associated with receiving, establishing records, and processing any service ordered to be completed or changed at any one time. This charge applies to all requests for service initiated by a customer.

2. Network Access Line Charge

Applicable at the time of initiation of new service or the re-initiation of a discontinued service to the same customer whenever central office service is connected to a customer's premises. This charge is associated with the connection of Company facilities (drop wire, cable, protector, or ground units) to the customer's premises and applies to each central office line so connected. This charge covers travel time and work in central office facilities related to the connection of associated facilities required to render service.

* * * * * (C)

3. Changes in Telephone Number

a. Applicable when requests for changes in a telephone number of central office lines or trunks; one service order charge plus, for each number changed, a network access line charge will apply.

b. Applicable when changes in a telephone number of other than central office lines or trunks; one service order charge will apply. (C)

c. The above charges **DO NOT** apply when, in the judgement of the company, changes in a telephone number are necessary for continuation of satisfactory service.

4. Restoration Charge

- a. Applicable in the event service is temporarily suspended at the customer's request or for nonpayment of charges, such service will be restored upon payment of:
1. All charges due or, at the discretion of the Company, a portion thereof, and
 2. The restoration of service charge as specified and one service order charge.

A deposit may be required prior to reestablishment of service.

- b. For the restoration of a line segment which is part of a local private line, local tie line, or local off-premises extension line, the restoration of service charge and one service order charge will apply.

5. The customer has the option of paying the nonrecurring charges related to the initial installation of service for single line residence in equal monthly installments over three billing periods.

SERVICE CHARGES (continued)
LINK-UP AMERICA

A. DESCRIPTION

Link Up America is a program designed to promote universal service by providing a discount on service connection charges for qualified low-income customers. **NOTE: Customers who qualify for Link Up America Service may also qualify for Lifeline Service.**

B. REGULATIONS

- 1. Link Up America is available to residence customers who meet the following eligibility criteria:
 - a. The applicant must not be a dependent for federal income tax purposes, unless he or she is 60 years of age or older.

The applicant must self-certify the requirement set out in (a).

- b. An applicant for Lifeline Service must be a current participant in one of the following Pennsylvania programs, or be able to provide proof of household income which is at or below 135% of the annual Federal Poverty Guidelines for all States (except Alaska and Hawaii) and the District of Columbia. Recertification of a representative sample of Lifeline Service participants will be conducted annually by Bentleyville Telephone Company.

(C)
|
(C)

Pennsylvania Department of Public Welfare Link Up America Service Programs:

- * Temporary Assistance for Needy Families (TANF)
- * General Assistance (GA)
- * Supplemental Security Income (SSI)
- * Medicaid
- * Food Stamps
- * Low Income Home Energy Assistance Program (LIHEAP)

Additional Eligible Programs (Federal)

- * Federal Public Housing
- * National School Free Lunch Program

(C)
|
(C)

The DPW Programs listed above must be certified by DPW. Such certification by DPW will be provided only when a DPW client requests Link Up America Service based on the client's status as a participant in any of the above eligibility programs. Certification by DPW will be limited to confirmation of the client's program status (i.e., participation or non-participation). Participation by DPW is subject to execution of an agreement with DPW and The Bentleyville Telephone Company.

SERVICE CHARGES (continued)

LINK UP AMERICA (Continued)

B. REGULATIONS (cont.)

2. The Link Up America discount is applicable to one access line (dial tone line) when applied to the installation or relocation of main service at a customer's principal residence. (C)
3. Link Up America applicants are not exempt from Telephone Company Deposit requirements.
4. Service will not be established at discounted rates prior to receipt of certification. Service will be established at full service connection charges. If certification is received within 60 days of original application, credit will be applied to provide the Link UP America discount.
5. The Link Up America discount does not apply to applicants who are full-time students living in university or college controlled housing.

C. RATES

The Link Up America Program provides for a 50% discount on the Service Connection Charge associated with the connection of a new residence exchange access line (dial tone line) as specified in the Telephone Company's tariffs. The total amount of the discount may not exceed \$30.00 and the remaining charges will be billed to the Link Up America customer in monthly installments as specified in the Telephone Company's tariffs.

(C) Indicates Change

LIFELINE SERVICE

A. DESCRIPTION

Lifeline Service is a Residence offering for low-income customers who qualify for this service in accordance with the following Regulations. **NOTE: Customers who qualify for Lifeline Service may also qualify for Link Up America Service.**

B. REGULATIONS

1. Lifeline Service is available to qualified residence customers and is provided via a residence individual Dial Tone Line. Lifeline Service is limited to only one Service per qualified customer or household. A potential Lifeline customer who has an outstanding final bill for telephone service which is less than (4) years old must pay the entire balance of any Basic Service final bill before being eligible for Lifeline Service.

2. Residence Lifeline Service consists of the following tariffed standard features and optional customer elected services at the applicable rates, charges and regulations for each feature and service provided:

- a. One-Party Residence Unlimited Service and Local Measured Service, if available.
- b. Directory Listing (standard only).
- c. Non-Published or Non-Listed Telephone Number Service.
- d. Access to Directory Assistance Service.
- e. Touch Tone Calling Service.
- f. Access to Message Toll Telephone Service and Optional Dial Station-To-Station Calling Plan Services. However, the Residence Lifeline Dial Tone Line will be blocked from dial station access to 976/556/900 and any other type of Audiotex Service.
- g. Access to Operator Services.
- h. Voluntary Toll Restriction Option.
- i. Link Up America (if eligible).
- j. Access to 800/888 Services.
- k. Access to Call Trace.
- l. Access to Alerting and Reporting Systems (9-1-1 dialing).
- m. Access to the Pennsylvania Telecommunications Relay Service.
- n. Caller ID Per-call and Per-line Blocking
- o. Other eligible telecommunications services at tariffed rates

(C)

LIFELINE SERVICE

B. REGULATIONS (cont.)

- 3.. An applicant for Lifeline Service must be a current participant in one of the following Pennsylvania Department of Public Welfare (DPW) programs, federal public housing, and be able to provide proof of income which is at or below 150% of the annual United States Census Bureau Poverty Level Guidelines For All States (Except Alaska and Hawaii) and the District of Columbia. Recertification of Lifeline Service participants may be conducted biennially by The Bentleyville Telephone Company. (C)

Pennsylvania Department of Public Welfare Lifeline Service Programs:

- * Temporary Assistance for Needy Families (TANF)
- * General Assistance (GA)
- * Supplemental Security Income (SSI)
- * Medicaid (C)
- * Food Stamps (C)
- * Low Income Home Energy Assistance Program (LIHEAP) (C)

The DPW Programs listed above must be certified by DPW. Such certification by DPW will be provided only when a DPW client requests Lifeline Service based on the client's status as a participant in any of the above eligibility programs. Certification by DPW will be limited to confirmation of the client's program status (i.e., participation or non-participation). Participation by DPW is subject to execution of an agreement with DPW and The Bentleyville Telephone Company.

4. Lifeline Service will be provided to a customer only so long as such customer continues to meet the participation and certification guidelines in 2 (c) above. At the time of initial establishment of Lifeline Service, the customer agrees to have his or her eligibility recertified as determined by Bentleyville Telephone Company. When the Company is notified by the customer or determines through recertification that the Lifeline Service customer is no longer a participant in the DPW programs in 2 (c) above or otherwise low-income eligible, the customer will be notified (by telephone or letter) that the Lifeline Service rate is no longer applicable. Within the stated customer notification period (10 working days from the date of the notification), the customer can contact the Company to negotiate new Dial Tone Service arrangements at applicable tariff rates (no connection charges will apply for existing services or options retained). If the customer does not contact the Company by the end of the notification period, the Lifeline Service will be changed to applicable Exchange Area Dial Tone Line service at existing tariff rates (no connection charges will apply to existing services or options retained). Upon contacting the Company, the customer will have ten (10) working days to complete the low-income certification or recertification process in order to retain Lifeline Service.

(C) Indicates Change

LIFELINE SERVICE

B. REGULATIONS (cont.)

- 3. A. ON PREMISE AND OFF PREMISE SERVICE

1. General

When customer premise equipment is located in a building separate and apart from that containing the main access line, additional charges apply to that portion of the line extending beyond the building in which the initial access line is installed. This charge is computed on air line measurement from the point of exit from the main building to the location of customer provided or Telephone Company leased terminal equipment. This charge is made for each wire circuit irrespective of the number of customer premise equipment any one circuit may serve. Private Branch exchange stations other than those located in the same building in which the Private Branch exchange is located are connected by means of channels.

C. FOREIGN EXCHANGE SERVICE CHANNEL TYPE 2006

1. General

Foreign Exchange Service is exchange service furnished from an exchange other than that normally serving the area in which the customer is located. Foreign Exchange Service is furnished only in connection with one party business network access lines or trunks. The service is not offered as a normal or customary form of telephone service and will be provided only when suitable facilities and service conditions (in the opinion of the Company) permit. The customer is required to retain and maintain service from the local exchange serving the area in which the customer is located.

The rates listed below are appropriate for all facilities or portions of facilities furnished by this Company. Any facilities furnished by other companies will be provided at the rates established by the other company involved.

MILEAGE CHARGES (cont'd)D. INTER COMPANY PRIVATE LINE SERVICE1. GENERAL

a. Channels are furnished for intraexchange or interexchange service on a two-point or multi-point basis for a minimum period of one month.

b. With reference to the channel descriptions given below:

1. "Effective two-wire facilities" may be composed of two-wire metallic and/or four-wire metallic and/or carrier segments; "four-wire facilities" are composed entirely of four-wire metallic and/or carrier segments.

2. The 1000 Hz loss objective range specified refers to the total channel offering (end-to-end) and indicates that the engineered objective loss will fall within that range at the discretion of the Telephone Company depending upon available facilities and the applicability of appropriate engineering designs. These specifications do not include gains or losses present in customer-provided equipment.

3. The Telephone Company reserves the right to revise these objectives and other technical parameters as described herein.

c. The Telephone Company will bill the subscriber for the portion of the Private Line Service that is provided by the Telephone Company. The applicable nonrecurring service charges can be found in Section 3 of this tariff.

d. Third-Party Lease facilities, required to provide the Private Line Service, will be charged to the subscriber on a cost basis.

2. Series 1000 Channels

a. Type 1005 - used for low speed data transmission not to exceed 75 baud. Such services being furnished to existing customers at the same premises. Maintenance of these services is limited to the availability of replacement components furnished from existing stock.

b. Type 1006 - used for low speed data transmission not to exceed 150 baud. Such services furnished to existing customer at the same premises. Maintenance of these services is limited to the availability of replacement components furnished from existing stock.

Issued: August 31, 1989

Effective: February 9, 1990

MILEAGE CHARGES (continued)

D. INTERCOMPANY PRIVATE LINE SERVICE (continued)

2. Series 1000 Channels (continued)

c. Type 1011 (30 baud) - available on an intraexchange basis only for two- or three-point DC transmission and only where existing facilities and operating conditions permit. In offering to provide this service, the Telephone Company assumes no obligation to specially select, alter, rearrange or construct facilities and does not represent that a facility provided under this subsection is suitable for the intended customer application. Further, in providing this service where existing facilities permit, the Telephone Company assumes no obligation to continue such provision where rearrangements or changing service requirements necessitates the elimination of such facilities or render such facilities unsuitable for the customer applications.

d. Type 1012 (30 baud) - provided for both intraexchange and interexchange applications. On an intraexchange basis, Type 1012 is provided with a minimum of 3 points (master station and 2 remote premises) and up to a maximum of 26 points (master station and 25 remote premises). On an interexchange basis, Type 1012 is provided with a minimum of 2 points (master station and a remote premises) and a maximum of 26 points (master station and 25 remote premises). Type 1012 service is restricted to a maximum of 3 central office serving areas located in the same or different exchanges (one for the master station and two others to provide service to other remote premises).

Type 1012 service may be provided either by metallic channels or by other equivalent means at the Telephone Company's option. If provided by a low speed signaling system, the transmission specifications as accepted industry standards for low speed signaling channels apply. The Telephone Company will notify the customer if other than metallic facilities are utilized to provide Type 1012 channels prior to installation.

1. Regulations applicable to type 2001 Channels

a. Type 2001 channels are furnished for voice transmission of approximate bandwidth of 300-3000 Hz.

b. For private line duplex intraexchange or interexchange service the monthly rates for two local channels and two transmission functions for each premises served, apply.

(I) Indicates Increase

MILEAGE CHARGES (cont'd)D. INTERCOMPANY PRIVATE LINE SERVICE (cont'd)3. SERIES 2000 CHANNELS (cont'd)a. Type 2001 (cont'd)

1. Regulations applicable to Type 2001 channels (cont'd)
 - c. When these channels are furnished for multi-point service, bridging charges apply at each premises at which the channel terminates.
 - d. These channels are not suitable for switching and/or tandem operations to the public switched network or other private line services.
2. Automatic Signaling
 - a. Automatic signaling is only provided on a two-point basis between locations on different premises for use with Type 2001 channels.
 - b. Automatic signaling is provided by means of central office automatic ringing equipment which operates when the receiver at one station is lifted and causes the bells of stations at the other end of the line to ring collectively without code signals.
 - b. Type 2002 - A two-wire interface with effective two-wire facilities or a four-wire interface with four-wire facilities designed for remote operation of mobile radio telephone systems; for a two-point or multi-point service.
 1. Regulations applicable to Type 2002 channels
 - a. When these channels are furnished for multi-point service, a bridging charge applies at each premises bridged on the same circuit.
 - b. The following channels are furnished between specified locations for remote operation and control of private land radiotelephone stations established for communications with mobile units.
 - 1) Voice Channels
 - (1.1) Channels are similar as to those furnished for Type 2001 channels.
 - (1.2) Channels specially designed to provide transmissions in a frequency range broader than that furnished for Type

transmission characteristics, to

those furnished for Type 2001

2001 channels.

3. SERIES 2000 CHANNELS (cont'd)

b. Type 2002 (cont'd)

2) Control Channels

These channels are similar as to transmission characteristics, to those furnished for Type 1005 channels and are provided at the same rates as Type 1005 channels.

3) For Combined Voice Transmission and Control Purposes

(3.1) Channels furnished for combined voice transmission and control purposes may be used by the customer, in accordance with the normal transmission characteristics of such channels, for voice transmission purposed and to transmit more than one tone or signal in sequence or simultaneously or to create additional channels for remote control and indication purposes only.

(3.2) On two-point services, voice channels may be used alternately for control at no additional charge, where the control function is derived through the use of standard one-way, two-state Direct Current signaling over the voice channel.

(3.3) On multipoint services, two-state, Direct Current signaling for control purposes is provided by means of a separate Type 1005 channel. Appropriate monthly and non-recurring charges apply separately for the Type 1005 and the Type 2002 channel.

(3.4) On two-point and multipoint services, voice channels may be used for the remote operation and control of private land radiotelephone stations, at no additional charge when the control functions are provided via tone signals.

4) Additional Equipment and Facilities

Repeaters, amplifiers, special loading, equalization or special types of plant, required in connection with channels provided under either 1) or 2) above, are furnished at charges based upon the costs incurred.

2. Conditioning applicable to Type 2002 Channels

a. Type C1 - For a two-point or multi-point channel

- the envelope delay distortion shall

not exceed:

between 1000 and 2400 Hertz, a

maximum difference of 1000 microseconds

frequency (from 1000 Hertz

- the loss deviation with

reference) shall not exceed:

between 1000 and 2400 Hertz,

-1db to +3db

between 300 and 2700 Hertz,

-2db to +6db

between 2700 and 3000 Hertz,

-3db to +12db

(+ means more loss)

b. Type C2 - For a two-point or multi-point channel

- the envelope delay distortion shall

not exceed:

between 1000 and 2600 Hertz, a

maximum difference of 500

microseconds

between 600 and 2600 Hertz, a

maximum difference of 1500

microseconds

between 500 and 2800 Hertz, a

maximum difference of 3000

microseconds

frequency (from 1000 Hertz

- the loss deviation with

reference) shall not exceed:

between 500 and 2800 Hertz, -1db

to 3db; between 300 and 3000

Hertz, -2db to 6db

(+ means more loss)

NOTE: On a multi-point channel arranged for switching, conditioning in accordance with the above specifications is applicable only when in the unswitched mode.

Issued: August 31, 1989

Effective: February 9, 1990

D. INTERCOMPANY PRIVATE LINE SERVICE (cont'd)

3. SERIES 2000 CHANNELS (cont'd)

c. TIE Line Channels

1. Type 2021 - A two-wire or four-wire interface with four-wire facilities furnished for tie-line use between PBX's.

2. Type 2025 - A two-wire or four-wire interface with four-wire facilities furnished for tie-line use between a PBX and a C.O. Centrex.

3. Type 2026 - Furnished for tie-line use between C.O. Centrexes.

4. Regulations applicable to Types 2021, 2025, and 2026 Channels.

a. Type 2025 tie line channels between C.O. Centrex switching systems and non-C.O. Centrex switching systems are subject to one transmission function charge and one local channel charge at the non-C.O. Centrex end.

b. For Type 2026 channels connection switching systems located in different central office serving areas, one interoffice channel is required to connect the wire centers. In addition, a transmission function is required at each end of the interoffice channel to make the channel operative.

c. For Type 2026 channels connecting switching systems located in different exchange areas, one interexchange channel is required to connect the wire centers. In addition, a transmission function is required at each end of the interexchange channel to make the channel operative.

d. A Signaling Arrangement is provided for tie-line connected to grandfathered PBXs in accordance with Part 68 of the F.C.C. Rules and Regulations under the following conditions:

MILEAGE CHARGES (cont'd)D. INTERCOMPANY PRIVATE LINE SERVICE (cont'd)3. SERIES 2000 CHANNELS (cont'd)c. TIE Line Channels (cont'd)4. Regulations applicable to Types 2021, 2025, and 2026 channels (cont'd).
d. (cont'd)

1) An E&M Signaling Arrangement is required for each tie-line termination, operating in a Dial Repeating mode, at a customer premises with a Registered PBX.

2) An E&M Signaling Arrangement is required for each tie-line termination of a customer premises with customer provided PBXs when the tie-line is arranged with an E&M signaling interface.

3) An E&M Signaling Arrangement is not required with Type 2021 or Type 2025 channels for additions to or for new installations of customer provided PBX equipment when not arranged with an E&M signaling interface.

d. Telephone Answering Service Channels

1. Type 2040 - A two-wire interface with effective two-wire facilities engineered for a 1000 Hz loss objective of 0 to 8db; normally suitable for Telephone Answering Service use for secretarial lines connected directly to Telephone Answering Service Equipment.

a. Regulations applicable to Type 2040 Channels

1) When the secretarial line is connected directly to Telephone Answering Service Equipment in the same exchange, one local channel measured in one quarter (1/4) airline mile increments from the patron's serving wire center to the location of the Telephone Answering Service Equipment is provided. When the secretarial line is connected directly to Telephone Answering Service Equipment not on the same premises, one transmission function is also required.

2) When the secretarial service is furnished from an exchange other than the one in which the Telephone Answering Service is located, one interexchange channel is required to connect the wire centers. One local channel and one transmission function are required to connect the interexchange channel to the premises of the Telephone Answering Service.

MILEAGE CHARGES (cont'd)

D. INTERCOMPANY PRIVATE LINE SERVICE (cont'd)3. SERIES 2000 CHANNELS (cont'd)d. Telephone Answering Service Channels (cont'd)

2. Type 2041 - A two-wire interface with effective two-wire facilities engineered for a 1000 Hz loss objective of 0 to 4db; normally suitable for Telephone Answering Service use for secretarial lines terminated in concentrator equipment.

Channels

a. Regulations applicable to Type 2041

1) When a secretarial line is connected to a concentrator located in the same central office serving area as the patron's normal central office serving area, the connection is provided at a flat rate and requires no measurement.

2) When a secretarial line is connected to a concentrator located in a different central office serving area from the patron's normal central office serving area, one interoffice channel is required to connect the wire centers. A transmission function is required at each end of the interoffice channel to make the channel operative.

3) When a secretarial line is connected to a concentrator located in a different exchange from the patron's normal exchange, one interexchange channel is required to connect the wire centers. A transmission function is required at each end of the interexchange channel to make the channel operative.

3. Type 2043 - A two-wire interface with effective two-wire facilities engineered for a 1000 Hz loss objective of 0 to 4db; normally suitable for Telephone Answering Service concentrator-identifier use between a concentrator unit located at either the Company or the Telephone Answering premises and an identifier unit located at the Telephone Answering Service premises.

Channels

a. Regulations applicable to Type 2043

1) When the concentrator is located in a Telephone Company central office, one local channel and transmission function, Type 2043, are required for each talking path connected to the identifier at the Telephone Answering Service premises. If the central office serving area where the concentrator is located is different from the Telephone Answering Service central office serving area, one interoffice channel for each talking path is also required to connect the wire centers.

furnished by the Telephone Company to the same customer, and to channels created therefrom, if the forms of electrical communication for which they are being used are the same.

c. When these channels are furnished for multi-point service, a bridging charge applies for each station bridged on the same circuit.

2. Conditioning applicable to Type 3002 Channel

a. Type C1 - for a two-point or multi-point channel the envelope delay distortion shall not exceed:

-between 1000 and 2400 Hertz, a maximum

difference of 1000 micro-seconds

-the loss deviation with frequency (from 1000

Hertz reference) shall not exceed:

between 1000 and 2400 Hertz, -1db to +3db

between 300 and 2700 Hertz, -2db to +6db

between 2700 and 3000 Hertz, -3db to +12db

(+ means more loss)

b. Type C2 - For a two-point or multi-point channel the envelope delay distortion shall not exceed:

-between 1000 and 2600 Hertz, a maximum

difference of 500 micro-seconds

between 600 and 2600 Hertz, a maximum difference

of 1500 micro-seconds

between 500 and 2800 Hertz, a maximum difference

of 3000 micro-seconds

-the loss deviation with frequency (from 1000

Hertz reference) shall not exceed:

between 500 and 2800 Hertz, -1db to +3db

between 300 and 3000 Hertz, -2db to +6db

(+ means more loss)

NOTE: On a multi-point channel arranged for switching, conditioning in accordance with the above specifications is applicable only when in the unswitched mode.

c. Type C4 - For a two-point, three-point, or four-point channel

-the envelope delay distortion shall not exceed:

between 100 and 2600 Hertz, a maximum difference of 3000 micro-seconds

between 800 and 2800 Hertz, a maximum difference of 500 micro-seconds

between 600 and 3000 Hertz, a maximum difference of 1500 micro-seconds

between 500 and 3000 Hertz, a maximum difference of 3000 micro-seconds

2. Conditioning applicable to Type 3002 channel

c. (Continued)

-the loss deviation with frequency (from 1000 Hertz reference) shall not exceed:
between 500 and 3000 Hertz, -2db to +3db
between 300 and 3200 Hertz, -2db to +6db
(+ means more loss)

NOTE: On a three-point or four-point channel, conditioning in accordance with the above specifications is applicable only between one exchange (that designated by the customer as the control point) and each of the other two or three exchanges.

d. Type D1 - For a two-point not arranged for switching
- Certain data transmission characteristics necessary for high performance data transmission cannot be assured on all channels generally available for data transmission. However, Type 3002 voice grade two-point channels may be specially arranged to provide for the following technical parameters at the request of the customer:
- Signal to C-Notched Noise Ratio.....28db
- Nonlinear distortion:
(1) signal to second order distortion.....35db
(2) signal to third order distortion.....40db
When the channel equipment with this conditioning is utilized for voice communications, the Telephone Company does not undertake to represent that channel will be suitable for such voice transmission.

	6. Refunds.	4
B.	Underground Service in Residential Developments. . .	4
C.	Taxes on Contributions in Aid of Construction and Customer Advances.	4

CONSTRUCTION CHARGES

A. CONSTRUCTION AND ATTACHMENT CHARGES

1. General

a. The rates otherwise provided for in this tariff are based on furnishing service immediately adjacent to existing lines and facilities of the Company and on the use of lines and facilities engineered and constructed according to common and accepted practices. When service is desired at points somewhat removed from existing lines and facilities, or when abnormal and unusual arrangements and installations are desired, such service and installations are subject to additional charges.

2. Construction on Public Right-of-Way

In all cases of plant construction on public highway, ownership of the plant must be vested to either the Company or some company with which the Company has a joint use agreement.

3. Construction on Private Property

a. If it is necessary to place plant on private property in order to furnish service, applicants are required either to furnish, construct and maintain the necessary plant in accordance with the Telephone Company's specifications, or to pay to the Telephone Company charges for furnishing and constructing the necessary plant as follows:

1. Where poles are to be furnished and erected, either new or as replacements, the customer is required to pay the actual construction charge for each pole and provide for any necessary tree trimming to secure and maintain satisfactory clearance for facilities. Such poles shall become the property of the customer and shall be maintained and replaced when necessary, in accordance with the Telephone Company's specifications by the customer or at his expense.

2. Where attachment charges are made for the use of poles owned by another company or individual and located on private property, any attachments costs will be charged to the customer.

3. Where an applicant is so located that it is necessary to use a private right-of-way to furnish service, the customer is required to pay the entire cost involved in securing such right-of-way.

CONSTRUCTION CHARGES (cont'd)

A. CONSTRUCTION AND ATTACHMENT CHARGES (cont'd)

3. Construction on Private Property (cont'd)

4. Any rearrangements or changes involving relocation, removal or replacement of existing cable or wire facilities, either within or outside of buildings, including supporting structures, such as poles and conduit, and trench for buried wire, or the placing of additional facilities, made to meet the requirements of the customer, other than requirements for the installation of additional facilities, or the requirements for changing the location of station equipment or station wiring, the charges for which are specified in Section 3 of this tariff, are charged to the customer at cost. This charge shall include the actual cost of rearrangement, the estimated present value less salvage of Company owned plant removed, the cost of new Company facilities placed in excess of the route distance of facilities removed, and all costs of facilities for which the customer is responsible as specified above.

4. Other Special Construction

a. When some special or abnormal installation or arrangement of facilities is desired, such as underground construction or concealed wiring, the applicant may be required to furnish at his own expense all necessary conduits, outlets and other fixtures. The Company will install and maintain its facilities in such conduits and fixtures, provided they are constructed in such a manner as to meet the Company's needs and approval.

5. Minimum Contract

a. New construction will be provided only where service is contracted for a minimum period of _____ one year.

6. Refunds

a. If at any time within 3 years from date of completed construction, pole lines for which a customer has paid a nonrecurring charge are used for other purposes, such customers may be entitled to refunds provided they are still served by such construction. When such lines are used to supply local exchange service to other customers, the refund will be the difference between the original charge and that customer's pro-rata share of the total construction.

CONSTRUCTION CHARGES (cont'd)

A. CONSTRUCTION AND ATTACHMENT CHARGES (cont'd)

B. UNDERGROUND SERVICE IN RESIDENTIAL DEVELOPMENTS

1. The Telephone Company will apply construction and attachment charges for underground service in residential developments in accordance with presently effective PA P.U.C. rules and regulations.

C. TAXES ON CONTRIBUTIONS IN AID OF CONSTRUCTION AND CUSTOMER ADVANCES

1. Any contribution in aid of construction (CIAC), customer advance or other like amounts received from the customer which shall constitute taxable income as defined by the Internal Revenue Service will have the income taxes segregated in a deferred account for inclusion in rate base in a future rate case proceeding. Such income taxes associated with a CIAC or customer advance will not be charged to the specific contributor of the capitol.

MISCELLANEOUS SERVICE AND EQUIPMENT (cont'd)

A. DIRECTORY LISTINGS

1. General

All customers, including pay telephones, are (C)
entitled to one or more listings in the official alphabetical
directory published by the Telephone Company.

2. Free Listings

Listings provided without charge at the time service is
established:

	<u>No. Of Listings</u>	
Residence Service Listings	2	
Business Service Listings	1	
Pay Telephone Service Listings	1	(C)

3. Additional listings are provided at \$.50 per month. This charge
will continue while the directory containing such listing is in
effect. The charge will be terminated if:
- a. Telephone service is terminated
 - b. Upon death of listed party
 - c. Listed party subscribes for service in his own name.
 - d. Moves to a location where he is not accessible to the
customers access line.

4. Acceptable listings are limited to the real names of individuals,
partnerships, or corporations and/or names under which such
individuals, partnerships or corporations actually conduct their
business.

B. NON-PUBLISHED NUMBERS

1. General

Non-published telephone numbers are not listed in either the
Company's alphabetical directory or information records. The
general public does not have access to a non-published telephone
number.

2. Rates

	<u>Monthly</u>	
Non-published telephone number, each listing.....	\$2.00	
Pay Telephone Service customers will not be charged for a non-published telephone number.		(C)

3. Disclaimer

The customer indemnifies and saves the Company harmless against
any and all claims for damages caused or claimed to have been
caused directly or indirectly, by the publication of the number
of a non-published service or the disclosing of said number to
any persons.

(C) Indicates Change

MISCELLANEOUS SERVICE AND EQUIPMENT (cont'd)

C. DIRECTORY ASSISTANCE SERVICE

1. General

Directory Assistance Service is furnished upon customer request for assistance in determining telephone numbers. The regulations and rates set forth below apply when customers of The Bentleyville Telephone Company request assistance in determining telephone numbers with the same Numbering Plan Area designation, which are requested from the Pennsylvania Directory Assistance attendant in the originating Numbering Plan Area.

2. Regulations

a. Monthly Call Allowance

An allowance of two direct dialed Directory Assistance calls per month without charge is permitted for each: residence exchange service line, residence dormitory line and residence trunk line. Call allowances or calls are not transferable between separate accounts of the same customer.

b. Exceptions

Charges for Directory Assistance Service are not applicable to the following types of calls of Directory Assistance:

1. Calls from patients in hospitals, skilled nursing homes and convalescent homes which have been properly licensed by the Commonwealth of Pennsylvania and which have as their predominant undertaking the surgical, medical and nursing care of the sick and disabled.
2. Calls placed from residence telephones where a member of the customer's household has been certified by a registered physician or a designated agency as unable to use a directory because of a visual or physical handicap, or for the business telephone of a certified handicapped customer where assistance is otherwise not available.

c. Multiple Number Request

A maximum of two requested telephone numbers per call are permitted.

3. Rates

D. OPERATOR SERVICES

1. Line Status Verification
Upon customer request the operator will verify and provide the line status condition subject to a charge of \$.70 for each request.

No charge will apply for a line status verification when a trouble condition is indicated on the line.

2. Call Interruption
Upon customer request the operator will verify the line status condition and interrupt a call in progress to notify the party on the call that another caller is attempting to contact the line. The charge for call interruption is \$1.10 for each request. This charge includes the line status verification and call interruption.

3. Operator Calls
Calls placed through the operator to a station in the same Local Calling Area, are charged at the following rates:

<u>Calling Card</u>	<u>Operator</u>	<u>All Types</u>
<u>Customer Dialed</u>	<u>Station-to-Station #</u>	<u>Person-to-Person</u>
\$.35	\$.90	\$2.50

- Includes collect, special billing number, bill-to-a-third number, operator dialed calling card and all Time and Charge request calls.

(C) Indicates Change

MISCELLANEOUS SERVICE AND EQUIPMENT (cont'd)

E. CUSTOM CALLING FEATURES

1. General

The following central office based custom call services provide a variety of subscription and user programmable feature that manage calls based on customer input directions to the network. These services are automatically available to any single line customer.

2. Description

a. Speed Calling - permits the customer to place calls to local or long distance numbers by dialing abbreviated codes instead of the complete telephone number. Two arrangements are available: 8-number capacity using one digit abbreviated codes and 30 number capacity using two digit codes.

*b. Call Forwarding - This feature permits a customer to forward incoming calls to another number when the original line is:

- 1. Busy - when the original line is busy.
- 2. No Answer-when the telephone is not answered.
- 3. Busy or No Answer-when the original line is busy or when the telephone is not answered.
- 4. All Calls-Forward all incoming calls to another number.

*NOTE: Test calls and busy verification calls are not forwarded. Any one of the call forwarding features (all calls, busy, no answer) can be applied to any one customer.

c. Call Waiting - This service provides a customer with the capability of being notified, by means of a call waiting tone, when an incoming call to the customer has arrived while the customer is occupied in conversation. By operation of the switchhook, the customer can be connected to the second call while holding the first call. The customer may alternate between the two calls.

d. Three Party Conference - permits the customer, by operation of the switchhook, placing an existing call on hold, dial another telephone number, to add a second party to an existing local or long distance call. When the customer answers the third party, he may converse with that party privately prior to setting up a three-way conference.

e. Customer Dialed Account Recording - This feature permits the customer to limit toll access by having a 3-digit code assigned to the line. (C)

f. Directory Number Transfer - This feature permits the customer to forward incoming calls to another number. This is similar to Call Forwarding except that the transfer is performed by the telephone company by rearranging central office facilities.

g. Caller ID on Call Waiting - This feature enables customers to view, on a display unit, the calling party telephone name and/or number on incoming calls when the customer line is in use. Also, the date and time of the call are displayed for the customer. A maximum of 15 characters are allowed for the transmission of the calling party name. (C)

(C) Indicates Change

MISCELLANEOUS SERVICE AND EQUIPMENT (continued)

E. CUSTOM CALLING FEATURES

2. Description (continued)

* * * (relocated to Section 6, sheet5) (C)

g. Caller ID on Call Waiting (Continued) (C)

When the Caller ID on Call Waiting customer line is in use, the telephone name and/or number of the line that originated the incoming call and the date and time of the call are displayed on the called CPE following the waiting call alerting tone. The called party has the following options for disposition of the incoming call: (1) answer the waiting call while placing the original call on hold; (2) alternate between the waiting call and original call; (3) ignore the call

Customers subscribing to Caller ID on Call Waiting must also subscribe to Caller ID and Call Waiting service.

Customers subscribing to Caller ID on Call Waiting are responsible for the provision of a display device that is located on the customer premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein are the responsibility of the customer. The company assumes no liability and is held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

h. Line Hunting Service – an arrangement that groups together two or more main telephone exchange business lines from the same central office so that incoming calls are automatically switched from the initial line, if in use, to the first non-busy line. This service is provided subject to the availability of suitable central office facilities. (C)

MISCELLANEOUS SERVICE AND EQUIPMENT

F. PENNSYLVANIA TELECOMMUNICATIONS RELAY SERVICE

1. General

The Pennsylvania Telecommunications Relay Service is a Relay telecommunication service for the deaf, hearing and/or speech disabled population of the Commonwealth. The service permits telephone communications between deaf, hearing, and/or speech disabled individuals who must use a Text Telephone and individuals with normal hearing and speech as provided in the tariff filed by AT&T Communications of Pennsylvania, Inc.

2. Surcharge

In addition to the charges provided in this tariff and other intrastate toll tariffs in which this Company concurs, a surcharge will apply to all residence and business access lines served by this Company. This surcharge applies regardless of whether or not the access line uses the Pennsylvania Telecommunications Relay Service.

This surcharge serves as the funding vehicle for the operation of the Pennsylvania Telecommunications Relay Service, and shall be calculated by the Pennsylvania Public Utility Commission (the Commission). The Commission shall compute the Pennsylvania Telecommunications Relay Service Surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve month period commencing with July 1 of each year.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

The following surcharge rates apply to all bills issued on or after July 1, 2008: (C)

Per residence access line, per month	\$0.08	
Per business access line, per month	\$0.08	(D)

Centrex lines will be charged on an equivalency basis as determined by the Commission.

MISCELLANEOUS SERVICE AND EQUIPMENT

F. PENNSYLVANIA TELECOMMUNICATIONS RELAY SERVICE

3. Rates

Local calls will be charged at the applicable local flat rate or local measured service rate. Local calls originating from pay telephones shall be completed free of charge. All intraLATA toll calls, placed through the Pennsylvania Telecommunications Relay Service, will be rated according to the Rates Applicable on Messages Placed By Certified Speech and/or Hearing Disabled in the Pennsylvania Telephone Association Toll Tariff Pa. P.U.C. No. 10. This Company concurs in this tariff.

(C)

The company will make available to the Telecommunications Relay Service (TRS) user a calling card and a prepaid debit card. The rates for the calling card and prepaid debit card shall not exceed those that would apply to identical calls for non-TRS users of coin sent-paid service.

Please refer to the appropriate Interexchange Carrier tariff for interstate charges.

G. "900" INFORMATION SERVICE BLOCKING AND UNBLOCKING

1. General

Where central office facilities permit, "900" Information Service Blocking provides customers the capability to block origination of direct dialed calls to a "900" Information Service Number (900-NXX-XXXX).

2. Regulations

- a. Blocking is available on individual lines for residence and business customers.
- b. When the blocking is activated, direct dialed calls to all "900" Service numbers are blocked.
- c. Initial blocking is provided at no charge upon customer request. Subsequent requests for "900" Information Services Blocking will be provided at the rates listed below.
- d. Blocking can be provided on a Foreign Exchange access line.
- e. Blocking service may not be available with certain multi-line business arrangements.
- f. Initial unblocking is provided at no charge upon customer request. Subsequent requests for Information Service Unblocking will be provided at the rates listed below. (C)

MISCELLANEOUS SERVICE AND EQUIPMENT (Cont'd)

H. DESCRIPTION

1. Caller ID Service

This feature enables customers to view, on a display unit, the telephone name and/or number on (C)

incoming telephone calls. When Caller ID is activated on a customer line, the telephone name and/or number of an incoming call is displayed on the called customer premise equipment during the first long, silent interval of the ringing cycle. The telephone name and/or number that is displayed on a Caller ID customer display unit include listed, non-listed, and non-published numbers. When an incoming call is from a caller served by a PBX or multi-line hunt group, only the main number of the PBX or hunt group is transmitted and available for display. Caller ID service works only on calls, which originate from and terminate in central offices, which are equipped and have SS7 connectivity. Caller ID is available to customers by monthly subscription only, providing unlimited use of the service.

When the customer line is busy and another incoming call attempt is made, the telephone name and/or number of that calling party is not disclosed unless the customer subscribes to Caller ID on Call Waiting service. The customer has the option of turning off the display device to suspend the display of incoming calling names and/or numbers.

Telephone names and/or numbers not displayed to customers subscribing to Caller ID are: (1) calls from customers using Per-Call Blocking or subscribe to Per-Line Blocking service; (2) calls from customers located in central offices that are not part of the SS7 signaling system; (3) operator-handled calls. When calls from these sources are received by customers subscribing to Caller ID service, their display unit, using a privacy indicator, will notify them that the calling telephone name and/or number is unavailable.

Caller ID customers may choose to use the Anonymous Call Rejection feature, allowing them to automatically reject all calls that have been marked anonymous by the calling party. When Anonymous Call Rejection is active, the called party receives no alert (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated. Anonymous Call Rejection is automatically available to all Caller ID service customers free of charge. Blocked calls routed to Anonymous Call Rejection are not rated as completed calls. Anonymous Call Rejection usage is limited when assigned to hunting numbers, or lines that when busy will "roll" an incoming call to another line. The Anonymous Call Rejection feature will remain on or off until the customer contacts the telephone company to change the status of the feature.

A third party provider provides the delivery of the calling party's name and/or number. As the information contained in the third party's database may not be up to date and accurate, Bentleyville Telephone Company shall not be responsible for and makes no representation with respect to the content of the information received or transmitted.

Customers subscribing to Caller ID are responsible for the provision of a display device, which is located on the customer premises. The installation, repair, and technical capability of that equipment to perform in conjunction with the feature specified are the responsibility of the customer. The Company assumes no liability or responsibility with respect to the capability of the customer equipment, its performance, or its ability to provide satisfactory service. (C)

Canceling 2nd Revised Sheet 11

MISCELLANEOUS SERVICE AND EQUIPMENT (Cont'd)

A. DESCRIPTION (Cont'd)

1. Caller ID Service (Cont'd)

* * *

(C)

2. Caller ID Per-Call Blocking

Per-Call Blocking is automatically available to all customers served by the Company. This blocking option allows the calling party to block the passage of their telephone number on outgoing calls. To activate Per-Call Blocking a special code is dialed prior to placing each call.

When this blocking feature is activated by the calling party, and they place a call to a Caller ID subscriber, the subscriber's display unit will indicate that the incoming call has been blocked. There is no charge to activate Per-Call Blocking and the service is provided on an unlimited basis. Caller ID Per-Call Blocking does not prevent the delivery of telephone numbers to 911 emergency service providers.

The Pay Telephones in the Company serving area will only be equipped with the Caller ID Per-Call blocking option. Instructions on how to use blocking will be provided at each public telephone location.

(C) Indicates Change

MISCELLANEOUS SERVICE AND EQUIPMENT (Cont'd)

A. DESCRIPTION (Cont'd)

(G)

3. Caller ID Per-Line Blocking

The calling party may prevent the display of their telephone number on a permanent basis by subscribing to Per-Line Blocking.

This blocking option automatically prevents the display of the calling number for all calls placed from that line to a Caller ID subscriber, unless the feature is deactivated. If a subscriber of Per-Line Blocking chooses to deactivate blocking, the calling telephone number would be sent for that call only. After the call is completed, the line automatically reverts back to the Per-Line Blocking feature. The deactivation of Per-Line Blocking is completed by dialing a special code prior to placing each call.

The code to deactivate Per-Line Blocking is different than the one used to activate Per-Call Blocking. Caller ID Per-Line Blocking will be available to all customers in the company serving area.

The Per-Line Blocking option can only be added or removed from a customer's line by placing a service order with the Telephone Company. When this service is removed the line is automatically converted to the Per-Call Blocking capability. Caller ID Per-Line Blocking does not prevent the delivery of telephone number to 911 emergency service providers.

Per-Line Blocking is not available on Public, Semi-Public and COCOT telephones in the Company serving area.

4. Special Provisions

Customers who use either Per-Call blocking or Per-Line Blocking will be unable to complete calls to Caller ID subscribers that have activated the Anonymous Call Rejection feature. When a caller who has blocked the display of his/her telephone number calls a Caller ID subscriber that has activated ACR, the caller will hear an announcement that the called party does not take anonymous calls. To complete a

(C) Indicates Change

MISCELLANEOUS SERVICE AND EQUIPMENT (Cont'd)

A. DESCRIPTION (Cont'd)

call to a Caller ID subscriber that has activated ACR: (1) place the call by unblocking the telephone number; or (2) place the call through an operator which may involve charges in addition to the cost of the call. The live operator surcharge will be waived for customers of The Bentleyville Telephone Company who are victims of domestic violence, the staffs of domestic violence program agencies (when involved in domestic violence counseling) and emergency service personnel (while in the performance of their jobs). If the operator surcharge cannot be waived when the call is being placed, the Company will, upon notification, credit the live operator surcharge amount to the aforementioned party's telephone bill. Furthermore, should alternative methods become available in the future which permit the aforementioned to access the ACR party without revealing the caller's telephone number, the Company will waive any additional charges associated with such alternative methods.

MISCELLANEOUS SERVICE AND EQUIPMENT (continued)

I. CLASS FEATURES

1. General

The following central office (CO) based CLASS features provided a variety of subscription and user programmable features that manage calls based on customer input directions to the network. These features are available to any single line customer.

2. Description

a. Repeat Call - This feature allows a customer to automatically redial the last number dialed if the call was answered, not answered or busy, provided there have been no intervening calls. If the called line is found busy, a 30-minute queuing process begins. The calling party is then given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of the called line until both lines found idle or the queuing process expires.

b. Return Call – This feature allows a calling party to automatically return the most recent incoming call. If that line is found busy, a 30-minute queuing process begins, and the network automatically attempts to complete the call. The features can also function as redial to the last calling party. This feature also enables the customer to hear an announcement giving information regarding the phone number and the time of the most recent incoming call. A special recorded announcement will be given if either line blocking or per call blocking has been initiated by the calling number. The announcement will inform the customer that the last incoming number was a blocked number and cannot be announced. If the customer wishes to activate the Return Call service they will then be requested to dial “1” or hang up.

(C)

Exclusions:

When a Return Call attempt is made to a line which has Call Forwarding invoked, the request is denied. Return Call attempts to a PBX are not permitted. In addition, the calling number will not be provided if the calling telephone number has activated a call number blocking feature.

(C)

Company

Section 6
First Revised Sheet 16
Cancels and Supersedes Original Sheet 16

MISCELLANEOUS SERVICE AND EQUIPMENT (Continued)

I. CLASS FEATURES (continued)

2. Description (continued)

c. Return Call-Level 2, (L2) - (continued)

Exclusions:

This feature has the same exclusions as L1 including that the calling number will not be provided if the calling telephone number has activated a call number blocking feature.

d. Customer Originated Trace - This feature permits the customer to trace the number of the last call received. After receiving the call which is to be traced, the customer dials a code and the traced telephone number is received at the Telephone Company. The customer originating the trace will not receive the traced telephone number. The results of a trace will be furnished, by the telephone company, only to legally constituted authorities upon proper request by them.

A per activation charge will apply.

e. Selective Call Rejection (SCR) - This feature provides the customer with the ability to reject or block future calls from specific telephone numbers and can be activated after receipt of an unwanted call or after entering a telephone number from which the calling party does not wish to receive future calls. To activate SCR, the customer regains dial tone and dials a code, which creates a screening list with a maximum of six (6) numbers. Further calls from telephone numbers in the screening list are re-routed to a central office (CO) recorded announcement indicating that the SCR service is in use and that the call cannot be completed.

For calls from a line within multiline hunting, the call is selectively rejected only where the main telephone number has been entered in the screening list.

NOTE: The Selective Call Rejection feature overrides other list features, Selective Call Forwarding, Call Forwarding Remote Activation and Priority Call.

Issued: March 25, 1996

Effective: March 26, 1996

The Bentleyville Telephone
Company

Section 6
First Revised Sheet 17
Cancels and Supersedes Original Sheet 17

MISCELLANEOUS SERVICE AND EQUIPMENT (Continued)

I. CLASS FEATURES (continued)

f. Priority Call - This feature allows the customer to designate special telephone numbers so that calls from those numbers may be identified using distinctive alerting/ringing treatment. This feature will provide a distinctive audible signal if the incoming call is from a party on the screen list of six (6) when the phone is idle. When a call arrives from one of the prespecified telephone numbers the Priority Call rings distinctively. If the customer also subscribes to Call Waiting and the call arrives while the line is busy, the Call Waiting tone has a distinctive pattern.

For calls from a dial tone line with multiline hunting, the distinctive signal is only produced when the main telephone number has been entered in the screening list.

g. Selective Call Forwarding (SCF) - This feature provides the customer with the ability to selectively forward calls from a pre-determined list of six (6) numbers to another number specified on the list. The telephone which will be receiving the calls is called the remote directory number. The customer must enter a remote directory number before this feature can be activated. Only calls from those telephone numbers in the screening list may be forwarded to the designated telephone number.

For calls from a line within multiline hunting, the call is selectively forwarded only where the main telephone number has been entered in the screening list.

h. Call Forwarding Remote Activation (CFRA) - This feature provides the customer with the capability to administer the call forwarding feature from a directory number other than the one to which the feature is assigned.

Issued: March 25, 1996

Effective: March 26, 1996

MISCELLANEOUS SERVICE AND EQUIPMENT (Continued)

I. CLASS FEATURES (continued)

j. Subscriber Identified Number Assignment (SINA) - this optional feature lets the customer have up to four (4) different directory numbers on one physical phone line. Each number rings differently and can be listed separately in the telephone directory. If the customer subscribes to the Call Waiting feature, the special Call Waiting tone matches each ringing pattern.

3. Rates

a. Monthly Recurring Charge

1. Repeat Call	\$3.00
2. Selective Call Rejection.....	4.00
3. Priority Call	3.00
4. Selective Call Forwarding	3.00

MISCELLANEOUS SERVICE AND EQUIPMENT (Continued)**J. 911 TARIFF LANGUAGE**

1. GLOSSARY OF TERMS

Host Telephone Company: The service provider, which is also the telecommunications public utility that provides 9-1-1 service to the county/municipality, and that houses the Automatic Location Identification (ALI)/MSAG data used for providing 9-1-1 service.

Telephone Company: A telecommunications public utility regulated by the Pennsylvania Public Utility Commission and which has or requests access to the county/municipality 9-1-1 system or connection to the serving selective router, including, but not limited to, local exchange carriers and competitive local exchange carriers. This term is synonymous with ‘service provider’.

Content: The data elements of the MSAG including (but not necessarily limited to) the data elements that are entered into the following fields A-I of a standard MSAG record:

- A. Tax area record
- B. Locality
- C. Street
- D. Thoroughfare
- E. Directional [where required]
- F. Even (E), odd (O), or all (A) [applied to house numbers]
- G. Low-high range of house numbers
- H. PSAP (Public Safety Answering Point)
- I. LAT/LONG (Latitude/Longitude) [where required]

Formatting, Format: Shall include changes to the identity of fields, order of fields, and number and arrangement of data elements in each field, and a telephone company’s rearrangement or regrouping of such data, without changing the MSAG content, for purposes of validating against MSAG records.

2. REGULATIONS

- A. The Telephone Company will comply with the Protocols as set forth in, and in the form of, Service Provider E-9-1-1 Protocols, Service Provider E-9-1-1 Questionnaire and Testing Procedures in accordance with the Petition of Bell Atlantic-Pennsylvania, Inc. for a Declaratory Order (MSAG); Docket No. P-00971203; Settlement Agreement of all Parties and Joint Petition entered August 7, 1998.
- B. The Telephone Company is indemnified under the Public Safety Emergency Telephone Act, Act 78 of 1990.
- C. The Telephone Company’s liability and insurance provisions are fully stated in Pa. P.U.C. No. 6, Section 1, General Regulations.
- D. Cases of Service interruptions affecting public health and safety shall receive priority attention under any and all conditions, particularly in time of disaster. Every appropriate resource will be utilized. The service provider will make reasonable best efforts to have its system fully functional as soon as possible, unless conditions beyond the service provider’s control prevent service restoration.

MISCELLANEOUS SERVICE AND EQUIPMENT (Continued)**J. 911 TARIFF LANGUAGE** (cont'd)

2. REGULATIONS (cont'd)

- E. The service provider will not use the county's/municipality's MSAG for any purpose that is not directly related to and required for the provision of 9-1-1 service.
- F. The Host Telephone Company will install the county's/municipality's MSAG in 'read/write' format and will not modify the content of the MSAG unless requested or permitted to do so by the county/municipality. A request to modify content by the Host Telephone Company shall be responded to by the county/municipality within (10) business days or the request is deemed to be approved. The request shall be in writing and shall set forth in reasonable detail the proposed modification and all reasons in support. The request shall be granted provided the modification is necessary for the Host Telephone Company's provision, maintenance, or upgrading of the 9-1-1 service.
- G. The Telephone Company shall not otherwise modify the content of the MSAG, but may make formatting changes approved by the county/municipality necessary to enable the MSAG to conform to the telephone company's information system(s). The request shall be in writing and shall set forth in reasonable detail the formatting changes and all reasons in support. The county/municipality shall respond to the request in ten (10) business days or the request is deemed to be approved. The request shall be granted provided the formatting change does not impair the integrity and accuracy of the MSAG database. For the purposes of this regulation, a content or formatting change does not include the use of the MSAG content in telephone companies' operational support systems to validate customer information for input to the ALI database.
- H. The service provider will not sell, lease, rent, loan or provide, or transfer the county's/municipality's MSAG to any other person(s) or entity(ies) without the express written authorization of the county's/municipality's 9-1-1 coordinator, or his or her designee.
- I. The Telephone Company will not, without the written consent of the county/municipality, modify or create any derivative of the county's/municipality's MSAG, except as follows: one (1) mirror image copy of the MSAG may be made in electronic form for archival purposes (the copy may be made in read/write format by the host telephone company, but shall be made solely in read-only format by all other telephone companies), and the telephone company may make a mirror image copy, solely in read-only format and only for database reconciliation, address verification for new connections of service, and other functions that are necessary to ensure that the name and address information provided by the service provider to the county/municipality is accurate and conforms to the county's/municipality's MSAG format.

MISCELLANEOUS SERVICE AND EQUIPMENT (Cont'd)

K. NATIONAL DIRECTORY ASSISTANCE

1. GENERAL

National Directory Assistance provides customers with the listings of individuals or businesses located outside the Regional Calling Area but within the United States.

2. REGULATIONS

- a. A maximum of two requested telephone numbers per call is permitted. Charges are applied per call.
 - b. No call allowances or discounts apply.
 - c. The National Directory Assistance rate will not apply to the following types of calls:
 1. calls placed from residence dial tone lines where a member of the customer's household has been certified by a registered physician or a designated agency as unable to use a directory because of a visual or physical disability, or from the business dial tone line of a customer certified with a disability where assistance is otherwise not available.
 2. calls placed from patients in hospitals, skilled nursing homes and convalescent homes which have been properly licensed by the Commonwealth of Pennsylvania and which have as their predominant undertaking the surgical, medical and nursing care of the sick and disabled.
 - d. National Directory Assistance will not be offered from the following services:

Hotel/Motel Guest Lines
 - e. If a customer requests both a Local Directory Assistance listing and a National Directory Assistance listing on the same call, the National Directory Assistance rate will apply for both listings. The Local Directory Assistance request will not be subtracted from a residential customer's call allowance and an additional Local Directory Assistance rate will not apply.

MISCELLANEOUS SERVICE AND EQUIPMENT (Cont'd)

K. NATIONAL DIRECTORY ASSISTANCE (Cont'd)

3. REGULATIONS (Cont'd)

- f. The Telephone Company's liability for any errors or omissions in the National Directory Assistance information provided to the customer shall be subject to the same liability limitation for the Telephone Company's provision of local directory assistance information set forth in Section 6, Sheet 3 of this Tariff.

4. RATES

National Directory Assistance, per call \$.95*

* Plus the applicable operator-handled rate if the customer dials "0" and reaches a Telephone Company operator.

L. **BUNDLED SERVICE PACKAGES**

1. Description

Product bundles provide residential customers the option of subscribing to service packages that combine basic local service with other features and services offered by or through the Company at a single bundled rate. Product bundles are available on a monthly subscription basis at the rates provided below. No Service Order or Non-Recurring charge applies to Bundled Service Packages.

2. Regulations

- a. Bundled Packages are only available to customers whose long distance service is provided by Marianna Long Distance.
- b. Bundled Packages are only available to residential customers.
- c. Bundled Package customers may terminate the package or switch to another calling plan at any time.
- d. Customers enrolled in Bundled Packages, who fail to pay the entire package rate due per month, will have all existing Bundled Package services converted to the applicable tariff rates for the individual services included in their package. Service Charges will not apply for converting services back to their individual tariff rates. Such customers will not be permitted to re-enroll in the Bundled Packages until such time as all associated unpaid balances have been paid in full.

MISCELLANEOUS SERVICE AND EQUIPMENT (Cont'd)

L. **BUNDLED SERVICE PACKAGES (Cont'd)**

3. Rates

- a. Subscribers to any of the Home Phone bundles may upgrade their bundle for an additional \$5.00 per month to include:
 - Call Conferencing 3-way
 - Anonymous Caller Rejection
 - Call Back Busy Unlimited
 - Call Return Unlimited
 - Call Forward –All Calls
- b. Customers who commit to subscribing to any of the Full House double play bundles for a minimum of 12 months will receive a \$5.00 credit per month.
- c. Customers who commit to subscribing to any of the Full House triple play bundles for a minimum of 12 months will receive a \$10.00 credit per month.

M. SMALL BUSINESS BUNDLES

1. Description – Small Business Bundles (SBB) are available to business customers with one to ten business access lines, and offer small business customers with a business access line, unlimited long distance calling, and the option to select five custom calling features. SBBs are also available with High Speed Internet (HSI) access services.

a. Custom Calling features available are: Caller ID Plus, Three-Way Calling, Call Forwarding, Call Waiting, Speed Calling – 8, Call Return, Caller ID on Call Waiting, Line Hunting, Anonymous Call Rejection, Repeat Dialing, and Basic Voicemail. (C)

2. Regulations

- a. SBBs are available only to customers who are presubscribed to FairPoint Long Distance as their primary interexchange carrier for both intraLATA and interLATA calling.
- b. SBBs are not available in combination with other optional calling plans or private lines.
- c. SBBs are available on a month-to-month basis, or for one, two, and three-year terms. A standard signed agreement is required for all term plans.
- d. SBBs are not available with services provided under special contract.
- e. Standard installation charges apply, except as provided for elsewhere in this Tariff.
- f. Long distance calling includes calling to anywhere within the United States, U.S. Territories, and Canada.
- g. Termination - No termination charges apply for month-to-month service; however fees may apply for the early termination of term plans and are based upon the number of local access lines, length of term period, and term period tenure.
- h. Not all features may be available in all areas.
- i. SBBs include long distance and nonregulated services (e.g., voice mail and HSI) that are not subject to the jurisdiction of the Pennsylvania Public Utilities Commission. If a customer fails to submit timely payment sufficient to cover the entire amount of the regulated and nonregulated bundled package rate, the Company may discontinue the provision of any regulated and nonregulated services, other than basic local service, if payment is sufficient to cover the rate of basic local exchange service.
- j. Rates do not include Federal Subscriber Line Charges, Universal Service Charges, fees, taxes, and other surcharges.

3. Rates

PAY TELEPHONE LINE SERVICE

1. GENERAL

2. Pay Telephone Line exchange service is one-party exchange service for use by pay telephone providers, location owners and interexchange carriers and is furnished solely for connection with coin, coinless, or combination coin/coinless pay telephone equipment to the Telephone Company's network.
3. Pay Telephone Line Service:
 1. Is available in all exchanges of the Company; foreign exchange service is not available to these lines.
 2. Provides for one listing in the white pages and one listing in the yellow pages of the Telephone Company directory for each Pay Telephone Line furnished. However, Non-published Number Service or Non-Listed Number Service at no charge are also available to Pay Telephone Line customers.
 3. Only one coin-operated or coinless public access telephone unit may be connected to each Pay Telephone Line.
 4. Will be provided on a dial-tone-first basis to enable end users to dial certain calls without requiring coin deposits, i.e., all emergency calls, telecommunications relay service calls, and non-sent paid calls.
 5. Service will be provided on a two-way basis, except lines for which a specific exemption has been granted by the Pennsylvania Public Utility Commission.
 6. The pay telephone provider is responsible for meeting all federal, state and local statutes with respect to provision of pay telephones in accordance with all hearing impaired and handicapped person requirements.
 7. Temporary suspension of service (vacation service) is not available for Pay Telephone Line Service.
 8. Pay telephones connected to a Pay Telephone Line must be registered in compliance with Part 68 of the FCC's rules and Regulations.
 9. Each pay telephone connected to a Pay Telephone Line must be capable of providing user call completion to 911 Universal Emergency Service, if available. If 911 service is not available, the pay telephone must permit access to the operator.
 10. Failure of the subscriber to comply with the provisions of this Tariff may result in the suspension or disconnection of the subscriber's service.

2. REGULATIONS AND RATES

1. Pay Telephone Line Service is provided at the corresponding exchange's one-party business line rate as contained in the Telephone Company's, Tariff - Telephone PA P.U.C. No. 6, Section 2.
2. Where measured service is available in a given exchange, the business measured service rates apply to Pay Telephone Line Service.
3. Network Access Line Connection charges listed in Section 3 of this Tariff apply to Pay Telephone Line Service.
4. The business touch tone rate listed in Section 2 of this Tariff applies to Pay Telephone Line Service, if requested by the customer.
5. Directory assistance charges of \$0.25 per call apply to Pay Telephone Access Lines.
6. Pay Telephone Line Service customers will not be charged for non-published or non-listed telephone numbers. However, a non-recurring charge applies for each change of telephone number required to establish a non-published or non-listed number.
7. All subscribers to Pay Telephone Service shall have the right to select their presubscribed intraLATA toll provider at such time that intraLATA presubscription is available in the Company's service territory.

3. AVAILABLE FEATURES FOR PAY TELEPHONE SERVICE

1. Optional call screening/blocking/coin supervision functions, as listed below are provided at the monthly rates stated. The non-recurring charges shown below do not apply to initial installations, but do apply to subsequent requests made by the customer.
 1. Incoming/Outgoing Screening - prevents completion of collect or third number calls to the Pay Telephone Line. Originated operator - handled calls from the Pay Telephone Line are restricted to collect, third number or calling card only.
 2. Incoming Blocking - blocks all incoming calls.
 3. Outgoing blocking - restrict outgoing calls to non-sent paid call only (coinless).

CUSTOMER OWNED AND MAINTAINED EQUIPMENT
ANDCUSTOMER PROVIDED INSIDE WIRE REGULATIONS (cont'd)A. CUSTOMER OWNED AND MAINTAINED EQUIPMENT1. GENERAL REGULATIONS

Customer provided registered terminal equipment or registered protective circuitry may be connected to the telecommunications network in accordance with provisions of the tariff and/or the Federal Communications Commission's registration program adopted in FCC Docket No. 19528 (Part 68) as are now in effect or may be implemented by the FCC in the future.

Customer provided communications equipment may be used with the facilities furnished by the Company for telecommunications services as provided in this tariff. In all such cases, the customer provided communications equipment will be constructed, maintained and operated to work satisfactorily with the facilities of the Company.

Where telecommunications service is available under this tariff for use in connection with customer provided communications equipment, the operating characteristics of such equipment or system shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the customer provided equipment or system does not endanger the safety of Company employees or the public; damage, require change in or alteration of the equipment or other facilities of the Company; interfere with the proper functioning of such equipment for facilities; impair the operation of the Company's service. Upon notice from the Company that the customer provided equipment or system is causing or is likely to cause such hazard or interference, the customer shall make such change as be necessary to remove or prevent such hazard of interference. The customer shall be responsible for the payment of Company charges, as specified in Section 3 of this section, for visits by the Company to the customer's premises where the service difficulty is determined not to be caused by the Company's facilities.

The Company shall not be responsible for the installation, operation or maintenance of any customer provided communications equipment. Telecommunications service is not represented as adapted to the use of customer provided equipment or systems. The Company shall not be responsible for:

- a. The through transmission of signals generated by the customer provided equipment or systems or for the quality of, or defects in, such transmission.
- b. The reception of signals by customer provided equipment or systems, or;
- c. address signaling where such signaling is performed by customer provided signaling equipment.

CUSTOMER OWNED AND MAINTAINED EQUIPMENT
AND
CUSTOMER PROVIDED INSIDE WIRE REGULATIONS (cont'd)

A. CUSTOMER OWNED AND MAINTAINED EQUIPMENT (cont'd)

1. GENERAL REGULATIONS (cont'd)

The Company shall not be responsible to the customer or otherwise if changes in the criteria outlined herein or in any of the facilities, operations, or procedures of the Company render any customer provided equipment or communications systems inoperable or otherwise affect its use or performance. Insofar as the Company has control of or notice of changes in the technical criteria, it will make a reasonable effort to notify a customer in advance in compliance with FCC Docket No. 19528 (Part 68) as is now in effect or may be implemented by the FCC in the future.

The Company will not be responsible for any loss or damage, nor for impairment or failure of the service, arising from or in connection with the use of facilities of customer and not caused solely by the negligence of the Company.

Satisfactory performance of the telecommunications network requires continuing functional compatibility of the network control signals and the switching equipment involved. To assure such continuing compatibility, network control signaling in the furnishing of telecommunications service shall be performed by equipment furnished, installed and maintained by the Company.

Where any customer provided equipment or system is used with telecommunications service in violation of any of the provisions in this tariff, the Company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within 5 days, following the receipt of written notice from the Company, that such as ceased or that the violation has been corrected. Failure of the customer to discontinue such use or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in termination of the customer's service until such time as the customer complies with the provisions of this tariff.

The customer indemnifies and saves the Company harmless against claims for infringement of patents arising from combining such equipment or systems with, or using it in connection with, facilities of the Company and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company. No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, except as provided in this tariff.

CUSTOMER OWNED AND MAINTAINED EQUIPMENT
AND
CUSTOMER PROVIDED INSIDE WIRE REGULATIONS (cont'd)

A. CUSTOMER OWNED AND MAINTAINED EQUIPMENT (cont'd)

1. GENERAL REGULATIONS (cont'd)

In case unauthorized attachments or connections are made, the Company shall have the right to remove or disconnect the same; or to suspend the service during the continuance of said attachments or connections; or to terminate the service.

B. CUSTOMER-PROVIDED INSIDE WIRE

1. APPLICATIONS

Customer provided equipment may be connected, at a service point of the customer, on voice grade basis with telecommunications service furnished by the Company, either through a network control signaling unit and connecting arrangement or as set forth in B.2. below.

2. DIRECT ELECTRICAL CONNECTION

a. The point of connection (point of demarcation) between the Company and customer provided systems and/or terminal equipment shall be as set forth below:

(1) Systems and/or terminal equipment not requiring Protective Connecting Arrangements will be at the Company provided demarcation point.

(2) Systems and/or terminal equipment requiring Protective Connecting Arrangements:

(i) Access lines will be at the Protective Connecting Arrangement.

(ii) Stations/terminal equipment will be at the Protective Connecting Arrangement.

b. The Company will not provide systems and/or terminal equipment or station wiring beyond the point of connection (point of demarcation) with customer provided systems and/or terminal equipment.

3. CHARGES DUE TO THE CUSTOMER-PROVIDED EQUIPMENT AND OTHER FACILITIES.

The customer shall be responsible for the payment of the charges for visits by the Company to the customer's premises or central office tests performed where a service difficulty is not caused by the Company's facilities as provided for in Section 3 of this tariff.
